BRITISH AND FOREIGN.

THE QUEEN, it is reported, intends to put up a stained glass window in Crathic church as a memorial of Princi-

REV. C. S. Ross of Skipton, Victoria, formerly of Anderson's Hay, Dunedin, is writing a lustory of the Orago President and the Company of the Orago President and the Orago Pr byterian church,

DR. BROMBY has raised a storm among the Episcopalisms of Melbourne by employing girls in his choir and arraying them in surplices.

REV. S. G. M'LAREN, M.A., formerly U.P. missionary in Japan, has been inducted to the charge of Coburg, in Melbourne presbytery, Rev. J. P. Ewing, M. A., of Toorak, late of Glasgow, was the preacher,

UNION is in the air. There are not a few indications that the Welsh Presbyterian church of the Presbyterian church of England are drawing closer together. Negotiations which may end in union are being set on foot.

A MOTION in London presbytery by Dr. Dykes for the employment of ordained missionary m nisters to evangelise among the non-church going, was opposed by Dr. Kennedy Moore and Rev. W. Fraser, but ultimately carried almost unanimously.

Titr jubilee fund of the New South Water Independents has reached £38, 850, a result that has surprised even themselves. It has been raised in three years—and these years of general depression-by a denomination that consists of not more than 2 per cent. of the population.

"PREACHING" was the subject of the inaugural address by Rev. Archibald Robinson after his installation, at the opening on the 9th ult., of the new acssion of the Assembly's college at Belfast. He maintained that anything which supersedes or weakens, or even enters into competition with preaching, leaves the church as an institution for saving souls practically worthless.

THE Baptists of New South Wales have been celebrating their jubilee. There are twenty-two congregations in the union. Revs. W. C. Bunning and W. Whale, were the preachers at Bathurst Street chapel, Sydney, the oldest Baptist place of worship in the colony. The sum of £2,000 has been promised towards a jubilee fund of £5,000, the total to be raised in five years.

DR. LORIMER, a prominent Baptist protests against the notion that it is the duty of the church to provide amuse-ments. This lies outside of her mission, and the thinks there is something authiliating in her endeavours at times to action modelebanks. If her hold on the young is due to such causes, she can have but a feeble grasp of the moral and appricual life. moral and spiritual life.

REFERRING to the slavery in which helplass Chinese girls are kept at Hong Kong by British law, and the degrad-ation of the British name before the Chinese Government and people by certain public official notifications reby physicians' prescriptions which containing to these poor creatures, the Indian Bitness says that as a matter of course all cabinet ministers are fully informed of the horrible scandal. 'Yet one and all—even Mr. Gladstone and Mr. Bright—act on policy, as if God were unable to resist the force of Buropean politics or to overcome the difficulties of taxation. As if there were no day of taxation. As if there were no day of taxation. taxation, as if there were no day of can keep up these habits in moderation." vengeance coming, when the Supreme "Well does not this discovery give

REV. COLIN STEWART, M. A. a name of Ferintosh and a graduate of Aberdeen, lias died in his EGih year grated to New South Wales in 1839, and was appointed to the mountain district of Bowenfels, where for sixteen years he itinerated over a sparsely-peopled country. He afterwards kept a boys' boarding-school in Lithgow valley, evangelising in the bush during his holidays. In the Disruption of the colonial church in 1846 he joined the Free church party. The later years of his life were spent in Sydney. His wife, a sister of Dr. Mackay Macintosh, of Dunoon, predeceased him by several years. One of Mrs. Stewart's sisters was the mother of Dr. George MacDonald. Mr. Stewart has left all his property to the church.

REV. PATRICK WHITE, who succeeded his brother Dr. Verner M. White as pastor of Islington church, Liverpool, has died in his 64th year, and the thirty-eightli of his ministry. For fifty-two years his father was pastor of the same congregation. His two uncles and his five brothers were all ministers of the Presbyterian church in Ireland. Mr. White acquired a knowledge of the Irish language, and preached for a short season in the south and west of Ireland to his countrymen in their mother tongue. He was called to the pulpit in Docoughmore, which his brother, Dr. Verner M. White, vacated in favour of a Liverpool congregation, and there he laboured for eleven years. For eleven years more he fulfilled the charge, at First Bailyborough, made vacant by his father's death, and once more he succeeded his brother Verner in Liverpool, who was called to a metro-politan charge, and there for thirteen years he endeared himself to his people by his unwearied efforts on their behalf.

DANGEROUS DRUGS.

HOW TO CONTROL EPPPCTUALLY ALL SUCH HORRIGER HABITS.

(Rochester, N.Y., Post-Express.)

A GENTLEMAN who has spent the summer abroad, said to our reporter, that the thing that impressed him most of all was the number of holidays one encounters abroad and the little anxiety the people display in the conduct of business affairs. "Men boast here." he said, "that they work for years without a day off; in Europe that

would be considered a crime."

Mr. H. H. Warner, who was present at the time, said, "This is the first summer in years that I have not spent on

the water. Been too busy."

"Then, I suppose you have been advertising extensively?"

"Not at all. We have always here-August and September, but this summer we have kept it running day and night to supply the demand, which has been three times greater than ever before in our history at this season."

"How do you account for this 2."

"How do you account for this?"
"The increase has come from the universal recognition of the excellence of our preparations. We have been nearly ten years before the public, and the sales are constantly increasing, while our newspaper advertising is con-stantly diminishing. Why, high acien-tific and medical authorities, now publicly concede that our Warner's safe cure is the only scientific specific for kidney and liver diseases and for all the

many diseases caused by them."
"Have you evidence of this?"
"Abundance! Only a few weeks
ago, Dr. J. L. Stephens, of Lebanon, Ohio, a specialist for the cure of narcotic, etc., habits, told fme that a number of eminent scientific medical men had been experimenting for years, testing and analyzing allknown remedies for the kidneys and liver, for, as you may be aware, the excessive use of all narcotics and atimulants destroys those organs, and until they can be restored organs, and until they can be restored to health the habits cannot be broken up! Among the investigators were such men as J. M. Hall, M. D., President of the State Board of Health of Inwa, and Alexander Neil, M. D., Professor of Surgery in the college of Physicians and Surgeons, and president of the Academy Medicine at Columbus of the Academy Medicine at Columbus, who after exhaustive inquiry, reported that there was no remedy known to schools or to scientific inquiry equal to

Warner's safe cure !

"Are many persons addicted to the use of deadly drugs!"

"There are forty millions of people in the world, who use opium alone, and there are many hundreds of thousands in this country who are victims of morphine, onium, quining and cocaine, They think they have no such habit about them—so many people are unconscious victims of these habits. They have pains and symptoms of what they call malaria and other diseases, when in reality it is the de-mand in the system for these terrible drugs, a demand that is caused largely by physiciana' prescriptions which con-

Judge will make restitution and recomyou a new revelation of the power of
pense."

"No, sir; for years I have tried to convince the public that nearly all the diseases of the human system originate in some disorder of the kidneys For seven years parish schoolmaster at inate in some disorder of the kidneys Huntly, he was ordained in 1838, emideclared that if our speciic were used, over ninery per cent, of these ailments would disapper. The liver and kidneys seem to absorb these poisons from the blood, and become deprayed and diseased."

When these eminent authorites thus publicly admit that there is no remedy like ours to enable the kidneys and liver to throw off the frightful effects of all deadly drues and excessive use of stimulants, it is an admission of its power as great as any one could desire; for if through its influence alone the opium, morphine quinine, cocaine and liquor habits can be overcome, what higher testimonial of its specific power

higher testimonial of its specific power could be asked for?"

"You really believe then, Mr. Warner, that the majority of diseases come from kidney and liver complaints?"

"I do! When you see a person moping and groveling about, half dead and half alive, year after year, you may surely; put. him down as having some kidney and liver trouble."

kidney and liver trouble."

"The other, day I was talking with Dr. Fowler, the eminent oculist of this city, who said that half the patients who came to him for eye treatment were affected by advanced kidney disease. Now many people wonder why in middle life their eye sight becomes so poor. A thorough course of treatment with Warner's safe cure is what they need more than a pair of eye glasses. The kidney poison in the blood always attacks the weakest part of the body; with some it affects the eyes; with o' ers the head; with others the stomach or the lungs, or rheumatic disorder follows and neuralgia tears them to pieces, or they lose the powers of taste, smell or become impotent in other functions of the body. What man would not give his all to have the vigor of youth at command?"
"The intelligent physician knows

that these complaints are but symptoms, 232 YONGE STREET, TORONTO.

they are not the disorder, and they are symptoms not of disease of the head, eye or stomach, or of virility, necessarily, but of kidney poison in the blood and they may prevail and no pain occur in the kidneys."

It is not strange that the enthusiasm which Mr. Warner displays in his appreciation of his own remedy, which restored him to health when the doctors said he could not live six months, should become infectious and that the entire world should pay tribute to its power. For as Mr. Warner says, the sales are constantly increasing, while the newspaper advertising is constantly diminishing. This speaks volumes in praise of the extraordinary merits of his preparations.
