

THE . . .
PERFECTED

Prouty Jobber

The modern Prouty upon investigation will be found to contain all the qualities and requirements that are called for by the most advanced of the printing craft. Machinery designed for times gone by does not fill the bill to-day.

For embossing, half-tones and speed you must buy a press which has strength, distribution and is correct mechanically.

Have in connection a department
devoted to . . .

WOOD and HALF-TONE

Engraving

As in their other lines, only the best work is turned out.

ARE YOU POSTED

ON THE PROGRESS

The Rogers Typograph

IS MAKING ?

THERE is no blare of trumpets, no talk of what it is going to do; the Typograph forges ahead steadily, relying on what it has been doing for years and what it is doing to-day in numerous offices all over Canada. Costs about half as much as, and does as much or more than, its competitors. Write for price and terms.

Canadian Typograph Co., Ltd.

WINDSOR, ONT.

Sets type at
one-half
the cost of
hand work.
