

* * * * * Sugar-coated Pills are more soluble than gelatine-coated or compressed pills.—Prof. Remington's paper read before American Pharmaceutical Association, Boston, 1875.

SUGAR-COATED PILLS AND GRANULES,

FROM OFFICIAL, AND OTHER RECIPES.

MANUFACTURED BY

WILLIAM R. WARNER & CO.

1228 MARKET STREET, PHILADELPHIA.

WARNER & Co's Pills are unequalled for their medicinal qualities, as the best materials enter into their composition, and the utmost care is used in their manufacture. An experience of twenty-two years, with careful attention and study, has enabled us to achieve results otherwise unattainable.

We claim the art of Sugar-Coating, which avoids drying the mass so hard as to render it insoluble and inert.

Skilful preparation and the scientific method of manufacture, which we do not hesitate to call our own, are recognized in the acknowledged success attained. We wish particularly to state that our Pills will produce the effect expected, and our desire is that Physicians shall be able to realize this in their practice; hence the necessity for specifying our make when ordering or prescribing.

We would particularly invite your kind attention to our make of

PILLS OF SOLUBLE BI-SULPHATE OF QUININE,

made from pure material, in sizes containing $\frac{1}{2}$, 1, 2, 3 and 5 grains each, sold at the same price as the Pills of the Sulphate of Quinine. This salt which we are now extensively manufacturing, is by virtue of its greater solubility, offered as an important improvement on the Sulphate.

The following list of Sugar-Coated Pills comprises a variety of combinations of great value, prepared for Physicians prescriptions.

FORMULÆ AND THERAPEUTICS.

PER
100

MEDICAL PROPERTIES. Doses. Each.

AGUE,	{ Chinoidin, 2 grs. Ext. Col. Co. $\frac{1}{2}$ gr. Ol. Pip. Nig. 1-3 " " Ferri. Sul. $\frac{1}{2}$ gr. }	Antiperiodic.	2 to 4	75
