TRADE AND COMMERCE

COMMERCIAL JOURNAL OFFICE, Tuesday Morning, Sept. 20

VICTORIA.

The general trend of business continues steady. As noted in previous issues, the scalers, who are just returning from their season's cruise, are doing considerable trading with retailers, which business being on a cash basis is eagerly sought

Collections from the general public are reported as very slow this month by different authorities. The arcivals of vessels from China and Japan during the week at Royal Roads, seeking, is a good sign, indicating that the Pacific coast is looked to as one of the most favored fields for business during the present dull times.

The Vancouver News-Advertiser says: "There is very little change in the local situation, business continuing steady. Money is still somewhat scarce, and collections are thus not as good as could be wished. Canners are now preparing for the coloe run, which has already started, and in a few days, fishing operations will be again in full swing. It is hoped that the run will be good, as the canners hope to be able to complete their packs During the last few days a large number of scalers have returned to port, all of them, with very fair catches. Several large shipments of skins have been made to the London market, in one week about \$125,000 worth having been shipped. The men are now being paid off, and as their wages amount to a considerable sum, quite a little ready money is being put into circulation, the effect of which will be filt throughout the Province. In whole sale business continues steady, and there is but little c' ange to note."

GROCERIES AND PROVISIONS.

The feature of the market is the advanc in sugar. The B. C. Refinery announced an advance of {e, and the importers of China sugar did likewise, still keeping to below the Refinery prices. The American market on smoked meats is reported slightly weaker. Quotations on new Mediterranean dried fruits are being made, and indications are that currants will be about the same figures as last year. Valencias will be a trifle higher than the opening figures of last season as the tendency seems to be to advance figures above those that were 10c per bbl. in Manitoba Hungarian and ready sale. The Concords are quoted at asked in the first instance.

The British Columbia Sugar Refinery Oregon flours. The Ogilvie Milling Co. 75cts and S5cts, and Delewares at \$1 per
