

SUNSHINE FURNACE

The "Sunshine" Furnace is entirely Canadian--is not a duplicate of any United States heater, as most of the furnaces made and sold in Canada.

Designed specially to meet the varied conditions of our climate, and to burn all kinds of fuel successfully--wood can be used in fall and spring, and coal in severe weather.

Has a self-acting gas damper--no need to open your doors, etc., to emit gas odors after lighting fire, as with common furnaces.

The "Sunshine" has more good features than any other furnace, and no other good furnace is so cheap.

Sold by all enterprising dealers. Write for booklet.
