

MR. STANLEY F. MOODY

Arts Student, who was elected President of the Alma Mater Society of McGill University college, Vancouver, by a large majority.

Though known to several of our men for some seasons now, Moody came to Westminster Hall as a resident only this past winter. He is a most promising student, a cheerful comrade, and altogether an attractive personality. While we understand he has not yet set his mind regarding the particular profession he will enter, we believe he

is too good a fellow in more ways than one to be allowed to miss what after all may be the work of widest influence and most lasting, Christ-like service. His friends in the Hall will, therefore, hope that he will hear and heed the message of the Deathless Ideal of Ministry—in medicine or theology, or in both.
