be exhausted within a few months and great stagnation and unemployment in the building trades may be expected. Already several woodworking factories have ceased operations.

This situation suggests that American manufacturers and exporters of building materials might profitably give renewed and special attention to the Dutch market, with a view to both the present and the future.

## MEASURES AIMED AT WHITE-PINE BLISTER RUST

The white-pine blister rust has reached a stage where, according to specialists of the United States Department of Agriculture, energetic action is imperative if the disease is to be controlled. Not only is all of the eastern white pine threatened already, but there is little
