ON THE MINING EXCHANGE

Particularly Noticeable in Porcupine Stocks - Cobalts Irregular-McKinley and Crown Reserve Up -Big Dome Above Minimum Price — Peterson Lake Down.

Another strong market prevailed on the Standard Exchange yesterday. This was particularly noticeable in Porcupine stocks. Dome Lake was again very strong. It opened at 40% and sold up to 42 Hollinger touched a new high at Jupiter was active and in demand. It opened at 12 and sold up to 14. McIntyre was higher at 25½. Porcupine Vipond was another feature and sold up to 24. Teck-Hughes was active and strong. It opened at 9½ and sold up to 11.

In Cobalts the market was somewhat sell higher.

Big Dome sold above the minimum price for the first time since the opening, and after getting over this price of 6.50 there was very little stock in the market. Odd lots sold as high as 7.00. It has been thought that a movement might occur in this stock at any time.

U.S. THANKSGIVING DAY Today being Thanksgiving day in the United States, the exchanges will be closed.

irregular, with strength in McKinley, which sold up to 70, and Crown Reserve, which advanced to 83 bid. Peterson Lake was rather reactionary, selling down from 28½ to offerings at 25½. Great Northern was quite active. It opened at 6½ and sold up to 4½. Strength in Teck-Hughes had a bullish effect, and if payments are made on Teck-Hughes it would not be surprising to see Great Northern sell higher.

COFFEE EXCHANGE OPEN

Steel Business Still Backward -Railway Earnings Lower -Abundant Cash.

NEW YORK, Nov. 25.—The fact that the stock exchange is to open at the end of the week has further stimulated confidence in financial circles. This was demonstrated today by an announcement of an early re-sumption of business by the local cof-fee exchange and by a broader enquiry for securities of the better class, some of which attained to best prices re-corded since the exchange suspended

perations:
Business dwindled in the unofficia market, which was fast losing all claims to future existence. Another indication of a general return to normal conditions was furnished by the curb, where trading in bonds at stable prices was resumed.

Book Orders Ahead.

Of all the important factors the steel enquiry almost alone continued to evince signs of backwardness. Large sales of pig iron were reported for the last few days, but the real state of the trade was shown by the willingness of manufacturers to book orders for the first quarter of 1915 at present prices.

Another decline in the rate of money for ninety days to four and one-half per cent, pointed to the abundant cash resources at this centre and be-spoke the diminished demand. Local terior correspondents on the ground that it was not available for use at this time. Bank acceptances were quoted at 3.7-8 per cent, which mark-ed the lowest rate since the establish-ment of the federal reserve board devoid of especial feature. Railway Losses.

The returns of the Southern Railway for October showed a loss in net earnings of \$948,000, while the Atchison Topeka and Santa Fe system for the same period gained \$375,000. According to private cables, London derived no little encouragement from lates advices respecting conditions here British consols were again quoted under the minimum figure recently named by the exchange.
