DUM DUM BULLETS USED BY TURKS

Large Quantity of Deadly Ammunition Fell Into British Hands.

AFTER FIGHT ON SUEZ

They Were Made in Germany for Big Game Hunting.

BY GEORGE RENWICK. special Cable to The Toronto World. CAIRO, March 7.—The battlefield on the eastern bank of the Suez Canal yielded evidence of yet another in-stance in which Germans and Turks, too, at the instigation of their taskmasters, violated the rules of civilized warfare. After the fight a large quantity of ammunition fell into the hands of the British, nearly the whole of it being for rifles and revolvers. These cartridges are all dum-dums. The revolver cartridges have flat leaden noses and four slits in the body of each bullet. On the base of both kinds of cartridges are the letters D.W.M., indicating that they were manufactured by Deutsche Waffen Und Munition Fabriken, a large German concern which manufactures Mauser rifles and ammunition. The packets that contained them are in case rifle ammunition boxes marked fertig metal Patronen, or ready metal cartridges, to-gether with the name Calcutta and the description Ausfuhrgut, or goods for The cartridges were doubtless sports The cartridges were doubtless originally made there for the use of sportsmen in India, and it at present is a mystery how those deadly cartridges came into the hands of Turkish soldiers.

They smoked their pipes and sang 'Tipperary' as is they were setting out able-bodied instead of coming home thus. In a blind man's violin playing there was feeling, but not sorrow. A man who lost both arms and ate his biscuit and smoked his pipe as if he had always done it this way." The writer thus sums up his astonicate of the safety of the empire.

The writer thus sums up his astonishment: "There was one who hyed in the war hell a couple of months, who spent months in mortal illness surrounded by his in mortal illness, surrounded by his sountry's foes, nursed by people who hate his race, who do not understand his language, nor wishes and sorrows, and who returns as a wreck and does it all as I saw him, gladly, gaily and without hatred. This is what puzzles me. Is it a special racial trait of English people? I do not know, but I know it is a fact."
