HOLLINGER and Dome Extension Hit the Bumps in Mining Market

EARLY BREAK IN PRICES MADE UP LATE IN DAY

Chicago Wheat Market Fluctuates Erratically—Favorable Developments Give Bears Whip Hand Early in Session, But Recovery Follows.

CHICAGO, June 19.—Bummers of export sales to France turned the wheat market upward today, after a morning of weakness. Closing prices were 10 to 15 cents above. Corn scored a net gain of 10 to 15 cents, finished unchanged to 10 to 15 cents, and provisions 10 to 15 cents.

Export sales were 10 to 15 cents, and provisions 10 to 15 cents. The market was 10 to 15 cents, and provisions 10 to 15 cents.

TOP AND BOTTOM PRICES FLUCTUATE BUT LITTLE

While Medium Grades Are High—Cows Due for Fall—Supply Double That of Wednesday.

Receipts of live stock at the Western Cattle Market yesterday were about double those of Wednesday, with prices ranging well up for the different grades. Forty-two carloads, consisting of cattle, 844 hogs, 311 sheep and 35 calves came in. The market was 10 to 15 cents, and provisions 10 to 15 cents.

BIG DECLINE IN DOME EX. MAKES NEW LOW RECORD

Bear Raid on Favorite Low-Priced Issue Met Stop-Loss Orders—Hollinger Also on Toboggan—General List Comparatively Steady.

World Office. Wednesday, June 19. A heavy liquidating movement in Dome Extension carried the price of that stock down to a new low record in the local mining exchanges today. Traders protested to have no real due to the meaning of the big slump, but it was hunted in some quarters that the closing out of accounts under stop loss orders was the underlying explanation. The recent depression in the market undoubtedly served to undermine confidence to a great extent, and it was consequently only to be expected that apprehensive holders should put in stop loss orders to limit their losses. Once the decline was fairly well under way it was carried on with a free hand, and the closing was only a slight advance from the low record of the day. The market for the day was five points the low quotation being 25.

SILVER CAMPS RECOVERED

Elk Lake, Gowganda and Other Districts in Limelight Again—Prospectors Return to First Love.

King Silver is coming back and already his hat is in the ring of mining men who are next to the game are not much mistaken. Weeks ago the movement in silver proper started, and is now well under way. And with many of the owners of silver claims in the several well-known northern silver districts are getting claims in shape for inspection by those who are becoming interested in a silver rejuvenation. There are hundreds of good silver prospects in the Elk Lake and Gowganda districts where the rock has been barely scratched, with good vein indications appearing on the surface. Mine men are now anxious to determine if these prospects will make good. Then, miners and prospectors in the north know more about mining silver than they do about anything else. Experience has shown them that mining on a silver claim is a vasty different from mining gold. It is not uncommon to take from a silver prospect a high-grade silver to pay for the entire work of development while proving up a claim. The element of chance in silver mining and men with small means are able to go to depth in probing the value of a lot.
