# Facts for Visitors.

This business has reached a point that makes it definitely an institution of Toronto. It contains enough now to make it an object of interest to all visitors, and when the new

additions are complete we'll be able to make you doubly welcome. Above everything else we insist on the maximum of shopping comforts. The store is cool, even on the hottest days, and those who come to Toronto for a day's outing will be more than pleased with the time they spend here. We keep thinking that the public interest is served and our interest is served by making visitors just as comfortable as we know how, and not asking anyone to buy a single thing.
