"During the first twenty months of war Great Britain spent \$1.500,000,000, 000, and aloholic drinks, yet this, the Empire's greatest foe, is not only tolerated in the old land, especially; it is in every way protected, not to say idolized. Was there ever such madness since the creation of man?" he asked.

"The British food controller's statement is not too rosy, yet the Government permits the trade to destroy thousands of tons of feeding stuffs, particularly sugar, which now sells for tunate enough to be able to buy it, every year.

The putting into effect of the new plan of compelling all persons sum-moned to appear in court the day spe-cified resulted in three motorists and five bicyclists coming before the magistrate today.

Dr. Edward J. Spence, 545 King street, pleaded not guilty to exceeding the speed limit of fifteen miles an hour on Sunday last. After hearing the evidence of Patrolman Tomlin, who stated that he had held a stop-watch on the doctor's car while it traveled from Waterloo street to Colborne street, a fine of \$5 and costs was imposed.

One of the men gets hurt, and Ray, a country bumpkin, is, to the despair of his team, called into service. Ray begins with two strikes. This kills all hope in the breasts of his cohorts, and it is with the wildest amazement and enthusiasm that they see him hammer a homer over the fence, bringing in another man ahead of him and winning the game.

Miss Ethel Clayton in the "Bondage of Fear" is the special extra attraction.

Basing his judgment upon that section of the act that specifies that it is place where it can be legally kept, Magistrate Graydon in police court to day dismissed the case of Thomas and Margart Morkin, 93 King street, charged under section 41 of the Ontario temperance act.

The charge was that each had liquor on premises other than a private dwelling, to wit, the C. P. R. depot.

To be deaf is very annoying and embarrassing. People who are deaf are generally mighty sensitive on this subject. And yet many deaf folks carry around instruments that call attention to their infirmity. Therefore people who are hard of hearing, who suffer from head noises, or who are actually deaf from catarrhal trouble, will be glad to know of a simple recipe that can be easily made up at home for a few cents' cost that is really quite efficient in relieving the disagreeable deafness and head noises caused by catarrh.

"In the "Bondage of Fear" is told the thrilling story of the fight for happiness made by Vesta Wheatley-Randolph. She only wins happiness after she is married and then she is forced to fight a terrible fight to keep this happiness. How she fights and how she wins out makes a splendid photopilay.

Roy Griffin, the silver-toned tenor, continues to grow in favor, his singing having won him a place in the hearts of Majestic patrons that will always remain.

Visitors to the Majestic Thursday marveled at the great orchestra, one man from a Huron County town remarking that it was the best orchestra he had ordered the liquor sent to her morther's home in Hespeler and had brought it home to be used for medicing.

NO TALK OF STRIKE SAYS VICE-PRESIDENT OF STREET RY. UNION

G. L. Bristol Declares That Local Men Have No Grievances.

G. L. Bristol, vice-president of the London street railwaymen's union, stated to The Advertiser last night that there was no talk of a strike in this city. The report, he said, that a meeting would be held Saturday night to discuss the situation was untrue. The men in London, said Mr. Bristol, have no grievances. They are satisfied with the cloth provided for the uniforms. While it is not what was expected, it is good value for the money. The company is providing stools for the cars, and lavatories are to be installed as soon as possible along the routes. It had been stated that these were points upon which the men and campany could not agree. Mr. Bristol asserts that they have all been adjusted.
