## BUT ONE MORAL STANDARD IN PUBLIC AND PRIVATE

Public Affairs Must Be Honestly Administered—Moral Reform League Activity.

"We must proclaim that there cannot be two standards of morality, one for public life and another for private life. We must demand the same care and efficiency in the administration of a public office as we would insist upon in the administration of a private estate."

Rev. Father Minehan was addressing the Social and Moral Reform League of Toronto, which met at the Y.M.C.A. last night. His remarks were heartily applauded, as were similar declarations by the other speakers. The league met to complete its organization and to receive the report of the nominating committee.

Father Minehan continued that there was at the present time an inclination to use in public warfare slanders and insinuations which would not be put up with in private life. The public men were as honest as the rest of the community, for they reflected the general moral sense of the community. Impure the morals of the community, he declared, and they would improve the morals of the public men.

Rev. Canon Ingles said that recent events which had transpired showed that it was necessary to bring before some members of the medical profession the great social evils which exist at the present time. Some strong influence should be brought to bear on men who practically made their living by the sale of liquor.

Present social conditions were manufacturing criminals, said Rev. Dr. Gaudier. Considering the homes some children had, the streets on which they played, the theatres they attended, the literature they read, there seemed only one end they could come to. In seeking to change those conditions, the league would find plenty of work to do. Short speeches were made by Dr. A. S. Grant, J. J. Kelly, Dr. S. Bates, James Acton, Rev. Dr. Chown, Rev. Dr. Shearer and W. E. Raney.

The officers elected were, President, Dr. A. S. Grant; vice-presidents, Prof. McGibbon and Rev. Father Minehan; secretary, James Acton; treasurer, John Turnbull; executive, transmitter, John Firstbrook, T. C. Robinson, Dr. S. Bates, Dr. W. J. McKay, W. Lampert, Rev. H. S. Magee, Rev. Dr. Chown, J. J. Sykes, J. G. O'Donoghue, D. J. McDougall, D. A. Carey, Rev. Canon Ingles, Hon. A. B. Morine, W. J. Clarke, G. B. Kirkpatrick, W. E. Raney, R. U. McPherson, Rev. Dr. Shearer and Rev. J. W. Pedley.

SMOKERS WILL LIKE THEM.

Not any high degree of Fahrenheit nor any lack of heat can affect the delightful aroma of the delicate Cabanas Cigars in the new cedar-lined and airtight canisters recently devised for the preservation of their enchanting flavor.

From too much dampness or too little of it the cigars are kept inviolate, because the box is airtight. G. W. Muller, who has just imported a fine line of the Cabanas in these boxes, believes that they will prove a lasting attraction, and whatever he commends is usually worth while.

Must Restore Natural Growth.

WASHINGTON, April 14.—Secretary Taft to-day approved the recommendation of the Niagara Falls committee, which in effect is an order to the Niagara, Lockport and Ontario Power Co. to "restore the natural growth on the side of the gorge at the point where power is now brought into the United States." This order is simply an enforcement of one of the conditions of the permit to this power company for the use of the waters of Niagara River and is made in accordance with the secretary's program of maintaining the natural beauty of the falls.

# M. A. Murray & Co. Limited A Cordial Welcome is Extended

to everyone to visit our store to-day and up till Easter. Our special Easter display is the finest thing of its kind ever attempted in Canada; we will leave you to be the judges and to pass criticism on it. Murray's quality is too well known to need any particular lengthy comments. An inspection of our various departments during this special Easter showing will convince any in the doubtful class that we have only the highest-grade materials.

## Stunning New Millinery Creations, Paris and New York's Daintiest Models.

Only a few days to Easter. Many selections in millinery have already been made, but there are as yet a good many of our customers who have not made their final selection. Just a word of counsel and advice to those of you who are in this "not decided" class. We have for your inspection in our millinery showrooms as handsome a collection as ever graced the parlors of New York's most exclusive milliners. This splendid gathering of distinguished millinery represents the efforts of some of the best Parisian designers. Make your selection to-day, if not, then as early as possible before Easter as may be convenient, for by early choice you will get better choice and more exclusiveness.

Our stock is now complete, and it is better to make your choice now, when there is a full range of sizes and widths in all styles, rather than wait till later on in the season and be unable to secure what you want. Many of the lines that we have in stock now cannot be repeated. Prices from \$2.50 to \$6. Ask for our shoe booklet.

## Daily Arrivals of New Waists

The new waist section appears this week in, we were going to say, an entirely new dress, but this perhaps would not be according to the strict letter, so we'll say an almost new dress. April styles are here in abundance, to a degree that very nearly overshadows the March offerings; practically are altogether a new collection and embracing the larger sizes, which you will remember were somewhat scarce in the March collections. We have several particularly attractive styles at \$3.50 and \$5; higher prices, too, say up to \$30.

## LT. COL. HOWELL PROTESTS.

British Immigrants Are Desirable, He Declares.

OTTAWA, April 14.—(Special.)—Col. Sam Hughes, M.P., received yesterday a letter from the officer in charge of the immigration department of the Salvation Army in Canada, referring to Armand Lavergne's attack on the Army's operations in Quebec. The letter follows:

"It seems shameful that men prompted by creed and race prejudice should declare on the floor of the house that Britishers, carefully selected, emigrating to Canada under our auspices, should be branded as undesirable. The statements are absolutely false. Farmers throughout Canada employing Britishers will resent this reflection. I hope something will be done to repudiate. (Signed) Lt.-Col. Howell."

New Course at O. A. C.

GUELPH, April 14.—(Special.)—Mr. Leake of the department of education visited Guelph to-day and his visit is said to mean the establishment of a new department in connection with the O. A. C.

The new department to be introduced at the college is said to be one in which the normal school graduates of the province will be given courses of three years' duration in technical education. It is proposed to give the gentlemen teachers in training courses in manual training, and the ladies a course in domestic science.

The normal school term at present was raised to-day. The records show a total of 79 cases with a fatality.

## LOCKED UP THE BAILIFF.

Adventure of Mr. Bawtenheimer, Who Had Rent Warrant.

GALT, April 14.—(Special.)—To-day Bailiff Bawtenheimer of the division court, went with Landlord James Bond to execute a rent warrant. He was proceeding to dislodge an organ in a house, on West Main-street, when the occupants, two women, deceived him into an inner room and locked him up.

The bailiff was a prisoner for several hours, pending the arrival of the help that effected his release. He left the house without taking possession of the organ and moving it out.

ST. LAWRENCE MARKET.

York County Farmers Feel Strongly Regarding Present Conditions.

The action of the Scarborough Township council of Monday in protesting against the closing of the St. Lawrence Market to the farming community is likely to be followed by similar action on the part of other municipalities. County Councillor Grubbe, during the last session of the county council, together with other members, brought the matter strongly to the attention of the mayor and Property Commissioner Harris, but since that time the situation has been aggravated rather than otherwise.

It was pointed out yesterday by the farmers attempting to do business in the neighborhood of the market that Mr. Harris at a public meeting, held in Agincourt, some time ago, declared that the northern part of the market would be kept strictly for the use of the farmers, while the hucksters would be allowed a portion of the southern end, or vice versa. Now, on every possible pretext, the former are compelled to stand on the streets, or dispose of their produce on the way down, in either case at a loss to all concerned.

It is said that the councils of Mark-

## IMPRESSIVE GOD-SPEED.

Large Number "Farewell" Rev. and Mrs. F. C. Stephenson.

Dr. and Mrs. F. C. Stephenson were tendered a farewell at Carlton Street Methodist Church last night when a large circle of friends and co-workers had assembled to wish them Godspeed on the holiday trip they are taking to the south of England and the continent.

Dr. Stephenson is the secretary and considered the originator of the Young People's Forward Movement for Mission of the Methodist Church, and it is the hard work he has done in this capacity that has rendered the trip so imperative, and incidentally his emigration, and he is leaving for the continent.

The meeting was called together under the auspices of the Toronto Epworth League Union, and the Toronto Conference Epworth League. Short addresses were given by the Rev. Dr. McKay, secretary of the Foreign Department of Presbyterian Missions, and his assistant, Rev. A. C. Armstrong; Rev. James Allen, general secretary of Home Department of Methodist Missions; the Rev. Dr. A. Carman, general superintendent of the Methodist Church; Dr. A. C. Crews, general sec-

## British Arrivals Want Precedence.

A deputation representing the executive committee of the British Welcome League will wait on the board of control to ask that Britishers be given a bigger share in the city work.

The officers of the league complain that too much of the work on the streets is being given to Italians, and claim that while there are Britishers out of work they should be given the preference.

They argue that the Britisher has come here to make this country his permanent home, while the Italian stays here only long enough to earn money to go home again.

Improving Brantford Railway.

BRANTFORD, April 14.—(Special.)—Announcement was made to-day by President Verrier of the Street Railway Co. that work on the extension of the local system would be commenced on May 1.

The main streets are to be double-tracked and loop lines built. The Grand Valley Radial to Paris will also be overhauled and a faster service established. The new company has recently received Decew Falls power and improvement is already noticeable.
