ENEMY MAKES FIERCE STAND ROUND GINCHY

British Make Fifty More Prisoners in Fight for Village.

TAKE ALL LEUZE WOOD Troops Under Sir Douglas Haig Draw Closer to Combles.

LONDON, Sept. 6.—Infantry fighting between British and Germans continued round Ginchy, north of the Somme, today, with the British taking 50 more prisoners.

The British also captured the remainder of Leuze Wood in fighting during the night. They then advanced half way to Combles.

The British corps operating on the right flank, next the French, has captured or destroyed 19 machine guns since Sunday.

British artillery caught under its fire a large party of Germans emerging on Courcelles and scattered it, as well as dispersing many German working parties.

The British lines are now pushed to within striking distance of Combles village, east of Leuze Wood.

Shelling Keeps Intense. An intense volume of artillery fire is being maintained by both sides, but the Germans, owing to loss of their means and power of observation, are handicapped in their endeavors to obtain accuracy of fire.

The following is the text of the official communication issued from British headquarters tonight.

"Severe fighting continues at Ginchy. Fifty more prisoners were brought in today. Nineteen machine guns were captured or destroyed since Sunday by the corps on our right flank.

"A large party of enemy emerging on Courcelles was caught by our artillery today and scattered. Numerous hostile working parties came under our shellfire and were dispersed.

"The enemy's artillery was active against portions of our front near Thiepval, north of Arras and between La Bassée Canal and Richebourg was carried out a successful bombardment. Best Off Foe Airmen.

"Yesterday our aeroplanes continued their usual successful co-operation. One of our patrols consisting of four machines encountered and drove off a hostile patrol of 13 machines. One of our machines is missing.

"The artillery of both sides has been active north of Pozieres and in the neighborhood of Mouquet Farm. Last night we discharged gas successfully opposite Combecourt.

"During the night our troops gained possession of the whole of Leuze Wood. Fighting continues between the wood and Combles village and around Ginchy.

"Yesterday afternoon, our heavy artillery effectively shelled the enemy's headquarters in Folyon Wood, east of Ypres."

FRENCH LINES ADVANCED TO CHAULNES OUTSKIRTS

Part of Village Captured in Infantry Attack After Particularly Stubborn Fighting

Special Cable to The Toronto World. PARIS, Sept. 6.—In heavy fighting south of the Somme today the French carried their lines as far as the outskirts of Chaulnes and they also advanced along the railway between Chaulnes and Roye.

A violent artillery duel was fought north of the Somme. In today's fighting the French report that the number of prisoners taken seems large, but they have made no definite estimate of their total.

The French night official statement says: "North of the Somme there was a violent artillery duel but no infantry action."

Renew Offensive. "South of the Somme in the afternoon we successfully renewed our offensive and carried several German trenches southeast of Belloy-en-Santerre.

"In the course of a vigorous infantry attack against the Village of Berry-en-Santerre we carried the greater part of the village and advanced as far as the southern projection of the park. Between Vermandovillers and Chilly there was especially stubborn fighting. We carried the northern portion of Vermandovillers as far as the road running from the village to Estrees.

"Further to the south, in the region between Chaulnes and Chilly, we captured more trenches and pushed our first line as far as the outskirts of Chaulnes and along the railway between Chaulnes and Roye.

Took Many Prisoners. "The number of prisoners captured during the day seems large, but there is no definite information yet. On the right bank of the Meuse (Verdun sector), the cannonade was intense at the end of the day in the Vaux-Chapitre Wood sector. On the rest of the front the day was comparatively quiet."

There were 225 of the brave heroes and this number included nearly all the members of the P.P.C.L.I. who have returned from the front. Major Flynn, casualty officer, lined the men up on the lawn to the east of the building and the duke passed along the lines, stopping frequently to ask questions. He then addressed them briefly, telling them how great had been their service to Canada and the empire at large.

Princess Patricia then inspected the men who had fought with the regiment named after her. All these men were present at the great battles on the western front.

WIFE COMMITS SUICIDE AFTER HUSBAND'S DEATH

Mrs. E. A. Victor Drowns Herself in Credit River Following Death of Husband Who is Struck by Train.

At 8 o'clock yesterday morning, while crossing the C.P.R. tracks at Port Credit, E. A. Victor, an English author, who has been living on the banks of the Credit while writing a book on "Canada's Future," was struck by a train and instantly killed.

At 4 o'clock in the afternoon his wife, who had been prostrated all day as a result of her husband's death, took a canoe and went up the Credit River. The canoe was found, but up to an early hour this morning Mrs. Victor had not been located, and it is taken for granted that she committed suicide by drowning herself in the river, as she was an excellent swimmer.

Victor came to Canada a short time ago to write a book, entitled "Canada's Future," for the purpose of setting forth information which would be of advantage to British emigrants. On his way to the office of Macmillan Company of Canada, with some manuscript yesterday morning he went by way of the tracks for a short-cut to his station. It is thought that the dense fog which prevailed at the time prevented him from noting the approach of the train. So badly mangled was his body, that it was impossible to identify him. Scattered manuscripts along the tracks proved his identity.

Mrs. Victor was prostrated with grief when she heard of the terrible death of her husband. Yesterday afternoon she seemed to be a little better, and asked her companion, Miss Beaufort, if she would mind going out for an hour or two while she wrote letters to relatives in England, acquainting them of her husband's death.

Miss Beaufort returned to the Victor home about four o'clock. Mrs. Victor was out. On the table were two letters addressed to her own and her husband's people. Thinking that Mrs. Victor had gone for a walk, Miss Beaufort waited until nearly five o'clock, when she got uneasy and spoke of Mrs. Victor's strange absence to neighbors.

A search party was immediately organized, and both banks of the river were patrolled. About a quarter of a mile from her home, the searchers found Mrs. Victor's canoe in some rushes. One paddle was missing, and the inside of the canoe was dry.

The search was conducted by Mr. Gardham and a number of men until midnight last night, without result. Matt Aykroid and Capt. Chapman of the Toronto life-saving crew will grapple the river today.

FOE UNABLE TO MAKE ADVANCE INTO ROUMANIA

Dobrudja Border Successfully Defended Against Teutonic-Bulgarian Attacks.

ENEMY LOSES HEIGHTS

Roumanians Progress Beyond Town of Borozek in Eastern Transylvania.

Special Cable to The Toronto World. LONDON, Sept. 6.—Teutonic-Bulgarian efforts to carry an offensive into eastern Roumania have met with a definite check. Roumanian forces being masters of the Dobrudja border east of the Danube, according to an official statement received from Bucharest. An enemy attack south of Basarjik has been repulsed. Elsewhere on the frontier the invading forces are being successfully engaged. Bucharest's report, so far as it relates to Basarjik, is in conflict with Vienna's report that this town, otherwise known as Dobric, has been taken by Austro-Hungarian forces.

Retiring Along Moldava. Austro-Hungarian troops continue to retire along the Moldava River, in the southeastern part of Bukovina, before the Roumanians, according to telegrams received at Geneva from Austro-Hungarian headquarters.

In Transylvania, the Roumanian gains continue, the invaders of Austrian territory having taken by assault heights west of the Town of Borozek, near the extremity of eastern Transylvania. Borozek was taken by the Roumanians several days ago.

An official Bucharest report, issued on Sept. 4, but delayed in transmission, says:

"Small encounters have occurred along the whole of the northern and northwestern front. We repulsed two hostile attacks in the Merisor Valley. We captured at Seps-Ostrog more than 500 wagons containing foodstuffs and forage and a completely equipped hospital."

"In the upper Maros Valley the enemy used dum dum bullets. We captured 7 officers and 620 men.

"On the southern front superior enemy forces attacked the bridgehead of Turku ten times, but each time were repulsed."

Battle at Turku. Mr. Vienn's claims are to be credited, possession of the bridgehead at Turku has since passed out of Roumanian hands. Petrograd today reports that Teuton-Bulgarian forces are pressing an attack in this region.

Turku is situated on the Danube about 20 miles east of Bistchuk, and it is in Bulgarian territory. The Roumanians crossed the river and occupied its southern bank, including Turku, a few days ago.

A Zurich despatch says that, according to Austrian admissions, the Roumanians, in one week of war, captured more than 1000 square miles of territory in Hungary.

The region occupied includes some of the most desirable sections of Transylvania. In it are many towns and several cities, one of which, Borozok, is a famous watering place.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

ON the western front the French right wing was deeply engaged south of the Somme yesterday and the fighting brought the allies important gains. The scene of the offensive was that new twelve and a half mile section of German defences extending from the southern border of the original French line of advance to a point below Chaulnes and into this the French drove two wedges yesterday. One was cut into the German defensive system about Belloy-en-Santerre and Vermandovillers, and the other was cut along the railway between Chaulnes and Roye, even to the outskirts of Chaulnes. The French took the greater part of Belloy-en-Santerre and the northern portion of Vermandovillers, extending to the Estrees road. This fighting brought the Gallie forces many prisoners and other spoils of war.

On the British battlefield north of the Somme and also on the remainder of the French battlefield, the infantry fighting yesterday was confined to just one point—Ginchy Village. There the British severely mauled the Germans, as evidenced by the taking of 50 more prisoners by them. In the preceding night British troops ousted the Germans from Leuze Wood and pushed onward straight for Combles, from which their lines are now established only half a mile away. The Germans are still fighting at a disadvantage owing to the continuance of British aerial supremacy, as seen by the feat of four British machines fighting and driving off thirteen German machines. Whenever German working parties appear they get a short
