### VAIN PLEA FOR AID MADE BY AUSTRIA

**LONDON, July 25.**—The Geneva (Switzerland) correspondent of The Daily Express writes: "I learned from Innsbruck that the Austro-Hungarian staff appealed several times during July to the German headquarters for assistance against the Russians in Galicia. Small numbers of reinforcements were sent, with the statement that it was impossible to send more troops during the strong Anglo-French offensive on the Somme."

"Thereupon the Austrian staff appealed directly to the kaiser, who replied: "When we have beaten the English, I shall reconsider the matter. I cannot spare troops at present, as the situation is serious."

### BEACH SHORE DAMAGED BY WATER OF THE LAKE

Harbor Board May Make Repairs and Collect From the Government.

More damage is being done to the shore at the Beaches by the water of the lake, and in many places the sidewalk is undermined. According to Works Commissioner Harris, the harbor board has charge of the section at the beach where damage is being done.

The mayor is in favor of requesting the commission to make temporary repairs at the expense of the city, with the idea of collecting the money from the government afterwards. His worship will take the matter up with Engineer Cousins of the harbor board at the first opportunity.

Controller Cameron and R. Home Smith of the harbor board visited the scene yesterday afternoon and found that at the foot of Kippendavie avenue the water had swept up several hundred feet.

### WANTED—WORKERS IN THE EMPIRE'S GRANARY.

Mayor Says Officials Trying to Get Canadian Stewart to Do Work.

According to Mayor Church the city has not a big enough plant to do the work of filling in Catfish Pond, and the harbor board is in the same position. "Our officials reported that they are endeavoring to have the Canadian Stewart Company do the work," he said. "The harbor board have been trying to get a figure for the work from others, but so far have been unable to do so."

He pointed out that the large dredge belonging to the Canadian Stewart Company was the only thing capable of accomplishing the undertaking and that would have to be released by the government and the harbor commission.

Difficulty in getting material from the lake had been experienced, according to Parks Commissioner Chambers. He hoped to have more information shortly.
