All upright members of the medical profession know this, whether they will admit to root, and it is time that the general public was made aware of the facts.

"Cases nave come to me that have baffled some of the best physicians in the country: where one doctor has said the trouble was with the stomach another said heart, still another diagnosed as heart disease and heart diseases and heart diseases and heart diseases or something else. But in each case I was able to see the real cause, and by removing it I restored the patient is treate
