FINDS UNDERLYING PRINCIPLE

World Distribute Public Utilities So as to Do Greatest Good to Greatest Number.

Brantford, Sept. 1.—(Special.)—Considering the great heat the public ownership meeting to-night in Y.M.C.A. Hall was a decided success, and about 250 heard the address from W. F. Maclean, M.P.

Mr. Maclean desired to go right to the question in a plain way. He would try to find an underlying principle in favor of the policy. Briefly it was to try to increase the number of public utilities and public conveniences and to distribute them to the greatest number of people.

THE STANDARD says: We may assume that Earl Grey will go to his duties with reluctance. In answer, cries of "No sympathy whatever with the Crown in the great self-governing colony."

Yesterday's news from the seat of war closed with the receipt of two despatches, giving information of a most significant character, and bearing on the domination of Manchuria at the close of the present campaign.

The first from St. Petersburg said that Gen. Kuropatkin had withdrawn his whole army to the right bank of the Taitse River so as to meet Gen. Kuroki's flanking movement.

Nothing to confirm this was received until several hours later, when a despatch from St. Petersburg, dated Sept. 2, said that "the news of the withdrawal of the Russian army to the right bank of the Taitse River," had caused intense excitement and disappointment.

The second despatch which may have a significant bearing on the campaign is that filed at Mukden at 3:27 p.m. Thursday, stating that the train service between Mukden and Liaoyang was interrupted, and it may mean the evacuation of Liaoyang communication, which would afford Gen. Kuropatkin an opportunity to retreat to his more northern base at Mukden.
