

THE PROPERTY OF  
**Trinity Medical College.**

inflammations of the Uterus ; Displacements of the Uterus ; Tumors of the Uterus ; Diseases of the Ovaries.

The Lectures will be fully illustrated by plates, models and morbid specimens.

**ANATOMY, DESCRIPTIVE AND SURGICAL.**

PROFESSOR ROBERTSON.

The Course on Anatomy, Descriptive and Surgical is made very complete, as this subject is regarded as the very foundation on which all professional knowledge is based. It will be taught in the most practical manner possible. The relations of Anatomy to Pathology, Medicine, Surgery, etc., will be fully dwelt on. The Lectures will be illustrated by the fresh subject, moist and dry preparations, sections, models, plates and original drawings.

Since the close of last session, the School has procured a large supply of Disarticulated Skeletons, and various preparations, and many of the best models of various parts of the body which can be had, to aid in the study, and teaching of this all important branch.

To facilitate their study of Osteology, students can procure a supply of finely prepared imported bones from the Professor.

**PRACTICAL ANATOMY.**

DR. TESKEY.

To the department of Practical Anatomy, so closely connected with Surgery, the greatest attention will be paid, and the Demonstrators with their assistants, will give daily attendance in the Dissecting Room. This room is large, perfectly lighted and ventilated ; and the utmost care has been taken to secure an abundant supply of Anatomical material. It is the desire of the Faculty that every student should acquire a thoroughly practical knowledge of Anatomy in the Dissecting Room, where alone it can be properly studied.

**PHYSIOLOGY, INCLUDING HISTOLOGY.**

PROFESSOR SHEARD.

This Course will embrace a Description of the Elementary Tissues of the Body ; the Structure of the various Organs and Glands ; also, the functions of Respiration, Circulation, Digestion, and Nutrition, Secretion and Excretion. Special attention will be given to the Nervous
