**MATTER OF INCREASED PAY FOR LETTER CARRIERS**  
Ottawa, Oct. 23.—When asked today whether it would be possible for the labor department to appoint a board of conciliation to deal with the demands of the letter carriers for an increase in wages, Hon. T. W. Crothers, minister of labor, expressed the opinion that this could not be done. The labor department, he said, would not interfere in the management of any other department of the government. The question of an increase in wages for the letter carriers would, he thought, be dealt with by the authorities of the post office department and their colleagues.

THE GERMAN EFFORTS TO WIN OVER THE RUSSIANS

London, Sept. 30.—(Correspondence)—The manner in which the German higher command encouraged fraternization between Russian soldiers and German soldiers even before the date of the Russian revolution, and the use to which they put this fraternization, is shown in an army order recently captured on the front of General Linsingen's army. It was issued a little before Easter, and is as follows:

In view of the approaching holidays, judging from the example of former years, it is expected that Russians will come out to us with presents, and emissaries are to be well received and allowed to return to their own lines. Conversations, however, may be carried on only by officers.

**KILLED AT VIMY RIDGE**  
Says the Victoria, B. C. Colonist—The American boy, killed on the third day of the battle of Vimy Ridge, may be claimed as a hero of the Pacific as well as of his native Atlantic province. He was born, raised and educated in the county of Antigonish, Nova Scotia, and in 1912 the degree of G. A. at the University of St. Francis Xavier, Antigonish, one of the little scholastic places where men have been trained who have made the eastern provinces noted for mental vitality. An elder brother, Father Boyle, is at present one of the faculty of the university. Soon after he was graduated Mr. Boyle came west and taught school for a time in Albert. Later on he crossed the mountains, and when the war broke out he was assistant principal of the public school at Revelstoke. Feeling, as he himself expressed it, to a friend here, that every boy should take up arms in defense of his country, he resigned his position and enlisted in Victoria with the 88th.

**AMERICAN SCHOONER IS SUNK**  
Submarine Destroys the Jennie E. Righter—Nova Scotian on Board.

London, Oct. 23.—The American schooner Jennie E. Righter of 647 tons gross was sunk by a Teuton submarine on Tuesday off Cape Villano, Spain. Nine men of the schooner were landed today at Malja. The Jennie E. Righter hailed from New Haven, Conn.

Apparently there was no loss of life on the Jennie E. Righter as the records of the United States Shipping Commission here show that the vessel carried only nine men when she left New York on Sept. 17, for Havre, France, under command of Captain Stephen Black.

The crew included five Americans—Dennis O'Neill, mate, Boston; Albert T. Young, seaman, East Boston; Charles E. Blatchford, cook, Gloucester, Mass.; and two naturalized seamen, John Grant of Nova Scotia, and Alfred J. Rowe, of England.

The schooner, owned by the Shepard & Morse Lumber Company of this city, was valued at \$60,000. She carried 6,500 barrels of lubricating oil, owned by the Vacuum Oil Company. The vessel was built at New Haven, Conn., in 1887, and was a three-master.

MARITIME PROVINCE MOVE CASE IN SUPREME COURT

Ottawa, Oct. 23.—In the supreme court today the maritime list of appeals was taken up. The first case heard was that of the Island Theatre Company vs. Reardon. Franklin leased a vacant lot from the respondent to build and operate a moving picture theatre, paying rent and ten per cent of the profit.

The respondent alleged that an agreement was made with Franklin whereby the respondent was to purchase twenty per cent of the stock of a company that was formed and which became the lessee instead of Franklin, and he and two associates were to become directors of the company. Another theory of the alleged agreement was that Franklin was to receive no remuneration as manager. Franklin denied that he made such an agreement. He said that in consideration of work being done by the respondent he would sell him some stock, that the work was done and Reardon then elected to take cash instead of stock.

The trial judge accepted the respondent's statement and ordered the transfer of the stock, the appointment of Reardon and associates as directors, and appointment of a receiver. He dismissed the action against the Strand Theatre Company. The full court affirmed the judgment against Franklin and reversed the judgment as against the company.

F. Bell, K. C., appeared for the applicant. Mellish, K. C., for the respondent.

NELLIE, FAMOUS WAR DOG, DEAD

Washington, Oct. 23.—Nellie, a celebrated war dog, brought to this country by the Belgian mission, is dead.

At the first battle of Ypres, Nellie trotted along beside her British owner, a British officer, into the rain of shrapnel and high explosive shells with only the thought of being near her master. She transferred her allegiance to the British when she was picked up by Major Osterreich of the Belgian first regiment of guides, to whom she was given the name of Nellie. In the trenches for many months Nellie lived with the Belgian regiment, always ready to "go over the top" with her British friends. Twice she was wounded by shrapnel.

Officers Fined Millions of Pounds in Buffalo Warehouse Labeled "Flour"

New York, Oct. 23.—Consumers must curtail their supply fifty per cent to avert a sugar famine in New York city, said Henry Mookowitz, commissioner of markets, in a warning issued to wholesale and retail dealers called today to devise means of insuring an equitable distribution of the sugar available here.

SAYS THIS IS WORST OF THE GERMAN CRIMES

Cowardly Sinking of the Merchants in the North Sea—Norse Papers Indignant

Christians, Oct. 23.—The Norwegian newspapers bitterly denounce the "murderous attack" of the Germans in the North Sea. The newspapers in Bergen demand the deportation from Norway of all Germans employed by the German general purchasing agency. These journals call the attention of the authorities to the danger to Norwegian trade from "this German gang," not only when many of them are common spies but also in the future.

The Christian newspaper Verdensgang says the affair was characteristic of German brutality and exceptional cowardice. The newspaper adds that the Germans, having put the British warships out of the game, acted against peaceful merchantmen like as if they were the entire British navy.

Another paper describes the incident as "the most cowardly and unscrupulous act of the war." It says that it was a cruel deed and will be unfriendly feelings.

He has the Victoria Cross, but refused to talk about it. He escaped from a German prison at Frankfurt and made his way to Holland. Captain Steer is to go to Ottawa today.

FRIEDRICHSHAFEN WAS HIT HARD WHEN ZEPPELINS LOST

Most of Crews Lived There—Death Blow to War Use of Aircraft of This Type

Zurich, Switzerland, Oct. 23.—Friedrichshafen is in mourning over the loss of at least four Zeppelins in the ill-fated raid on England, according to advices received here from Swiss towns on Lake Constance. The majority of the crews of the destroyed Zeppelins lived in Friedrichshafen, where they were receiving their training. The King of Wurtemberg has sent messages of condolence to the families of the men lost in the raid.

The Swiss newspapers express the opinion that the disaster in France is a death blow to aircraft of the Zeppelin type.

The newest Zeppelins, according to information received here, are 700 feet long and seventy-eight feet in diameter. They have eight engines, developing 2,000 horse power, and are able to keep in the air fifty hours with a crew of twenty men and a load of projectiles.

Immediately a Sore, a Rash or any skin trouble makes its appearance it should receive prompt treatment with Zam-Buk. This rare herbal balm destroys all germs as soon as applied and prevents the disease spreading. Zam-Buk contains absolutely none of the coarse animal fat or mineral drugs found in ordinary ointments, which invariably irritate and inflame and sometimes even poison the part they are intended to soothe and heal.

Zam-Buk is found in the homes of the best people of the Dominion today, because of its unique composition, and once tried its reliability establishes it as their household balm for all time.

PREVENTED DESTRUCTION OF ZEPPELIN (Continued from page 1.)  
cried: "Kamerad, Kamerad! The men remained perfectly quiet covered by my gun until a crowd collected, when they were put under a good guard. The captain seemed furious at his fate, but the men seemed enchanted with the adventure."

General Decastellano and M. Dumais, under secretary for aviation, who visited the Zeppelin on Sunday morning, congratulated Boteux on his presence of mind, and his enterprising courage which heretofore has been shown in the pro-German section, speaks very sharply against Germany.

One paper describes the incident as "the most cowardly and unscrupulous act of the war." It says that it was a cruel deed and will be unfriendly feelings.

London, Oct. 23.—A joint Scandinavian aviation protest, it is expected, will be lodged against the German sinking of the neutral steamers under convoy in the North Sea. The Swedish press, even the pro-German section, speaks very sharply against Germany.

Another paper describes the incident as "the most cowardly and unscrupulous act of the war." It says that it was a cruel deed and will be unfriendly feelings.

London, Oct. 23.—Official examination of the crews of the Zeppelins captured in France after a raid on England shows that the expedition consisted of thirteen airships which left singly from their three depots on the night of October 19. The raid was expected to last from twenty to twenty-five hours.

The raiders made for the English coast, which was recognized by light-houses. They were hampered considerably by the fire of British anti-aircraft guns and by numerous searchlights, which caused them to drop almost all their bombs when sailing at a height of more than 16,000 feet.

They were caught by a strong northerly wind and when they attempted to return to their bases their speed was slackened by the persistent head winds. At dawn the L-49, which fell intact into the hands of the French, dropped to a lower altitude, her commander believing he was over Holland or Westphalia. The crew waved white flags. It was not until after eight o'clock in the morning that the commander became certain he was over France, and at the same time the Zeppelin was sighted by French airplanes, which forced it to land.

A little later the L-50 passed over the L-49, which was then on the ground surrounded by French airplanes. The L-50 manoeuvred for a landing in a neighboring wood, to give the members of the crew as good an opportunity as possible to save themselves, but one car was torn off. Part of the crew escaped by means of parachutes. The car afterwards was destroyed by means of special pistols firing inflammable charges.
