Fine Exhibit, in M. R. A. Window, of New Brunswick Work

A display which is creating a great deal of interest is a cottage craft window of Manchester Robertson Allison, Ltd., King street, in which are shown samples of the goods made in the cottages and homes of the farmers in Charlotte county. It is a splendid demonstration of what can be done and the hope is this work will grow until it embraces the whole province and every farm house will have a part in it.

ALL NEW BRUNSWICK.

The articles on display were all made in New Brunswick from New Brunswick material. The wool is grown here, carded and spun into yarn, dyed and then woven on hand looms. This project is gradually developing a New Brunswick art and artists, as the workers make their own designs and these are taken from the everyday scenes around them.
