**Try This Treatment For Superfluous Hairs**

(The Modern Beauty).  
Beauty specialists are greatly interested in the new treatment for removing objectionable hairs, and the success of this treatment (which is positively assured) means the abandoning of the painful and time-consuming electric needle treatment. A paste sufficient to cover the hairs not wanted is made with powdered delatone and water and applied; after 2 or 3 minutes remove and with it comes every trace of hair. Washing the skin to remove the remaining delatone leaves it clear and firm. Be sure you get delatone.
