Enemy Continues Shelling Of Civilian Areas

BETHUNE ANOTHER YPRES

Active Patrol Work and Artillery Sniping Work-Health of Donien Forces Excellent and Praise is Given the C. A. M. C.

Canadian Headquarters in France, Jan. 4-(By W. A. Williston, Special Correspondent of the Canadian Press)-Behind the Canadian front another page is being written in the tragedy of the war of France, and France, knowing it, fights on with unbroken spirit and unfaltering determination to the ultimate end of victory. Again today the enemy was shelling Noeux Les Mines, continuing that policy of destroying civilian areas which he has pursued intermittently since the Canadians returned to the Lens area. Canadians returned to the Lens area. Hersin, Coupigny, Bruay and other towns in this district, together with Bethune, many miles behind the line, have been shelled and bombarded with a regularity which threatens to reduce them to ruins, making Bethune another Arras or Ypres, and of the towns such wastes as are Lievin, Angres and Vimy, within the forward battle area. The French population has been slowly evacuating the shelled areas, while the people remaining are living in sand-bagged lower rooms of underground retreats. At present, lacking bright moonlight,

the Hun airplanes have been quiet, but two weeks ago his machines were very busy. Raids of Bethune were of almost nightly occurrence until finally the civilians began to leave in large numbers for places of greater safety, while the city at nightfall seemed deserted, those who remained in it having taken shelter in cellars and dugouts.

In the field there is little of interest to report. Our patrols have been unusually active against the alert enemy, who had been sweeping No Man's Land nightly with machine guns. The enemy working parties were dispersed with casualties, while one of our reconnoit-ciring groups came under heavy enemy "pineapple bombardment, but escaped without loss. Our artillery has been busy sniping enemy working parties with the inhteen prompters.
