## THE HARMONICON,

Third Edition, containing Fifty additional Tunes, and a new Introduction.

The sale of two editions of the Harmonicon has sufficiently proved its utility and popularity as a collection of Sacred Music, suited to the use of the churches in British America. In preparing the present edition, however, the publishers have not rested satisfied with the past success of the work, but have made improvements which they trust will greatly increase its usefulness and extend its circulation.

The "Introduction to Vocal Music" of former editions has been replaced by the excellent "Elements" of the Boston Academy's collection which the Editors and Publishers of that work have permitted to be reprinted for the Harmonicon.

More than fifty carefully selected tunes and pieces have been added to the work, and above half that number of tunes omitted, which had fallen into disuse since the former editions; and it is to be hoped that the present edition will be found to be free from such blemishes.

This edition is printed from *new stereotype plates*, on good paper, and is strongly bound.

Sold by the Publishers in Picton, and by Messrs. A & W. MacKinlay and C. H. Belcher, Halifax. Price FIVE SHILLINGS.
