THE 'IMPERIAL' Marine Motor Engine

"The Motor that Makes the Mark."

Well Designed Well Built Well Equipped

The "Imperial" is manufactured by a well known and reliable firm of Iron Founders. They also manufacture Steam Engines, Boilers, etc., in a city where living rates, taxes and labor are cheaper than in most cities. They are thus enabled to furnish a

Higher Grade Motor and Better Equipment

for the price charged than most manufacturers. The "Imperial" has been especially designed for the use of Fishermen, and is guaranteed by the manufacturers to be well built of the best material obtainable, and if properly installed and operated to give good satisfaction.

The "Imperial" is extremely simple in design, and all parts are easily accessible. The most improved muffler, giving the least possible noise, no heat, no muffler explosions, no back pressure, etc., is supplied with "Imperial" motors. You can run the "IMPERIAL" slow enough to set fishing gear or to fish on a line without any back-firing or other fuss. This engine has some other special features.

I have cancelled all my sub-agencies, and I will in future sell only the "Imperial," having been appointed by the manufacturers as their Agent for Newfoundland.

In order to introduce the "Imperial" to the Fishermen of Nfld. I am quoting a very special price on 3, 4, 5 and 10 h.p. for this season. Call and see engine, or write for full particulars and special price.

BAY ROBERTS, FRIDAY, Oct. 15, 1915

Dr. Geisel's Lecture At Bay Roberts

On Wednesday night, Oct. 6th, in the Public Building, Dr. Carolyn Geisel, the American health lecturer, gave a most interesting and instructive address on Food and Food Values and the question which is uppermost in the minds of our people to-day, viz: Alcohol. The building was crowded, despite the fact that the night was stormy.

Rev. Canon Field occupied the chair and introduced the speaker, who received a very close hearing. She commenced by telling those present that they wouldn't have come from their homes unless they were interested, and she wouldn't have come from her home in Michigan unless she was interested. This is an important time, declared the speaker, and because of the importance of the times she had come to talk about things worth-while.

The King hath need of great men, true men. Therefore, you should make yourselves the best men and women you can be. You should strengthen your bodies and minds so that you may be ready to face the times. Why? Because your country, your King and your God wants you. You can only make your island great with great men.

The six cords of the cable of health are Diet, Exercise, Fresh Air, Clothing, Rational Remedies for Disease and Confident Faith in a Mighty God. You can keep your health by being careful of your diet. Diet is to the human body what gasoline is to a motor engine. Gasoline to be used in an engine should be strained. We should all be so careful about the Diet we supply the "human engine" with.

The doctor then displayed a chart representing the blood cells. We should keep the blood cells red by using colored fruits and vegetables, such as purple grapes, red cherries, greens, dandelions, tops of beet leaves, etc. Green vegetables will make the blood rich in iron. Eat cabbage, but eat it raw. Yolks of eggs contain iron.

Reference was made to the white blood cells, known as microphages and pellicans. They chase and destroy disease germs in the body. Sleep out of doors or with your windows wide open. But keep your bodies warm.

When alcohol in the shape of wine, beer, cider, or whiskey is taken it makes the white cells or microphages drunk, and they can't do their work.

Another chart was displayed showing two enlarged cells of the human brain, one being a cell taken from a healthy brain and the other cell from the brain of a confirmed drunkard.

It is of tremendous importance to this nation to have sober men.

Your boys are proving their loyalty at the front. How can you prove yours? By declaring and working for Prohibition. Your King has declared for total abstinence and what's good enough for your King is good enough for you. What the King has declared for you should declare for. Lord Kitchener has said that soldiers who drink don't recover from wounds so easily as the teetotalers. The gunshot wounds fester and don't heal up so quickly.

Do you get revenue from alcohol traffic? We cannot afford to take revenue from anything which injures and murders people.

Several charts of the human stomach were then shown, illustrating the healthy stomach, the stomach of the moderate drinker, a drunkard's stomach, the stomach in delirium tremens and a cancerous stomach.

Chew, CHEW, CHEW your food was Dr. Geisel's next slogan. In this connection a chart of a dog was shown on which a Russian scientist made certain experiments relating to the stomach and digestion. He showed that as the dog chewed food, gastric juice, full of pepsin and acid, accumulated in the stomach. This dog juice was drained off and taken by dyspeptics in America as pepsin.

Dr. Geisel declared that we strengthened our health by what we eat, fresh air and vigorous exercise.

Russia was never able to save more than \$15,000,000 a year. But in the month of January, 1915, when Russia was sober, she saved \$30,000,000. She has saved \$1,000,000,000 in 10 months since the sale of vodka, the Russian intoxicating beverage, was stopped. If you want revenue in Nfld. to run your country copy Russia.

She pointed out how the great Empires of Rome, Greece and Italy went down because their citizens touched the "wine when it was red."

Her concluding words were: Go out of this hall to-night determined not only to keep your own heart but to be your brothers' keeper, too. Let Nfld. be a message to the King telling him that they will follow him any way. (Applause.)

Rev. Mr. Jones then moved a vote of the thanks, which was heartily carried.

THE KIDDIES ADDRESSED

At the conclusion of Dr. Geisel's talk to the women, about 400 children from the various schools in this section were addressed. This was done at the request of a person on Wednesday night who is interested in children, and Dr. Geisel very readily consented to speak to the wee ones. She was rewarded by their attentiveness and close attention.

She talked to them of the importance of health, and warned them about the use of alcohol and tobacco, particularly cigarettes. She asked them to take as their slogan: "Saloons, Saloons, Saloons Must Go."

Canon Field, who was chairman, thanked Dr. Geisel on behalf of the boys and girls present.

PURE BLOOD MAKES HEALTHY PEOPLE

Hood's Sarsaparilla surely and effectively removes scrofula, boils and other blood diseases because it drives out of the blood all the humors that cause these diseases. They cannot be successfully treated in any other way. External applications for their removal have proven almost useless, because they cannot drive out the impurities that are in the blood. Hood's Sarsaparilla makes pure rich blood, perfects the digestion, and builds up the whole system. The skin becomes smooth, clean and healthy. This great blood remedy has stood the test of forty years. Insist on having Hood's, for nothing else acts like it. There is no real substitute. Get it today. Sold by all druggists.

Some Remarkable Cures

EFFECTED BY

Arctic Indigestion Cure

Salmon C District Bay de Verde, July 26, 1915.

For seven years I was a wonderful sufferer from heart disease and weak stomach. I fainted away very often and friends spent a lot of time watching over me. I was a dying woman, but two bottles of Arctic Indigestion Cure cured me. I cannot praise this medicine too much, for it did wonders for me. I had 8 doctors and tried all kinds of medicines, but all failed to cure me. But A. I. C. came along in time as a great means saving my life. I cannot thank you too much for your great remedy which has saved my life. Now a word to the people who are suffering. Don't be afraid to give this great medicine a trial, for it does all that it is recommended to do. Mrs. EUGENE KELLEDY.
