

## Museum.

### JOINT CURATORS.

THE HON. G. W. ALLAN, D.C.L.  
 REV. C. J. S. BETHUNE, M.A., D.C.L.  
 H. MONTGOMERY, M.A., Ph.B.  
 H. C. SIMPSON, M. A.  
 G. P. SPARLING, M.A.

The vestibule of the present building has been fitted up for the temporary reception of a Museum of Natural History, towards which many Mineralogical, Geological, and other specimens have been contributed.

In November, 1884, a very complete collection of specimens illustrating the geological formations of Canada was presented to the Museum by Professor Selwyn, Director of the Geographical and Natural History of Canada. The Museum has been classified and re-arranged by Mr. Montgomery.

The Curators will be glad to receive specimens from Graduates or other friends of the University.

### COLLECTION.

A large and valuable collection of minerals, fossils and other geological specimens, the property of Henry Montgomery, M.A., has been deposited in suitable glass cases in a room in the west wing of the College. Nearly all the Provinces of Canada and States of the Union, as well as most other foreign countries, are represented in this collection. Some of the specimens are of extreme rarity, and all may be profitably used in the study of the various branches of mineralogy and geology.
