Bottom.

Tokio, Aug. 28.—News of the sinking of the British steamer Dunearn and the loss of all but two of the 53 members of the crew in the typhoon which raged on August 25th off the Port of Goto, on the island of Kishu, has reached here a report received from Mōji, a town on the same island.

The names of the survivors are Wm. Phillips, an engineer, and John Landon, a seaman, both of whom were picked up by the Japanese steamer Sakyo Maru.

The Dunearn was bound from Nikolaev, Asiatic Russia, to Singapore, and put in at the Port of Kaituma for coal, again putting to sea on August 24th. The ship ran into the centre of a typhoon, which sent her to the bottom. The two survivors are prostrated from exposure and hardship, and a subscription has been taken up for them among the crew of the Sakyo.

There have been ten to fifteen drownings, mostly negro laborers. There will be much suffering, especially in the northwestern section of the state, from the water which will not recede for two or three days. The people in the manufacturing section will require help. The flood expands covers a immense territory, miles of water extending from the foot of the Carolina hills to the south in Georgia.

The loss to farms, farm lands, crops and livestock in the valley is not in the estimate of losses. The bottom cotton and swamp corn, an immense annual product, is ruined. Last night was a night of tension. Reports of whole families being missing are being repeated from mouth to mouth.

TROOPS AGAINST WILL OF PEOPLE

STRANGE CONDITIONS
IN ATLANTIC CITY

Inhabitants Favor Open Sun-
day—Soldiers May En-
force Law.

Atlantic City, N. J., Aug. 28.—The action of Governor Bayne in issuing a proclamation to the people of New Jersey, threatening to send troops into this famous resort to enforce the state liquor laws unless the people of Atlantic City voted to repeal the law, caused a sensation to-day among the residents, and the thousands of summer visitors.

Close on the heels of the governor's proclamation, another agency was sprung at May's Landing, the county seat of Atlantic county, when the grand jury absolutely refused to obey the instructions of the court to return indictments against "choice" law violators. Supreme Court Justice Thomas W. Trenchard, who had been requested by Governor Fort to act with the county judge, was so incensed at the action of the grand jury that he instantly discharged it with a severe reprimand.

What the result of the proclamations will be did the investigators say that they freely predicted that it will be much more difficult to purchase liquor in the seaside resort next Sunday than on any other Sabbath in the history of the town. Assistant Attorney General Gaskin, who is here assisting County Prosecutor Goldenberg in the excise cases, says the governor can call out the troops, although it is an unusual proceeding. The governor's power to declare martial law, he says, cannot be questioned.

It is claimed by county officials and the hotel men that 90 per cent of the people of Atlantic City are in favor of an open Sunday.

The controversy between the court and the grand jury started a week ago. Prior to that time the state excise commission spent several days here investigating the excise question. At the hearings of the commission, Mayor Stoy, Prof. Johnson and others practically told the investigators that they would not enforce the excise law because the sentiment of the people was against them. The evidence was so startling that it was laid before the governor, who requested Justice Trenchard to sit with Judge Higbee in Atlantic county and take charge of the matter.

The grand jury was summoned last week and brought in indictments against two alleged gamblers and adjourned until yesterday without considering any excise cases. When the grand jury came into the court yesterday, Justice Trenchard addressed the members as follows: "I understand that all cases have been brought in by the clerk, but I find in your order that the clerk must take the indictments."

When asked by the clerk if the grand jury had any indictments to present, Jos. W. Stoy, clerk of the court, said that it had not this time, and would report that it had not considered all the cases presented.

Justice Trenchard then said that the court would sit until indictments were returned in the excise cases, and the jury retired. The jurors returned late in the afternoon and presented three indictments, one against an alleged gambling house and one against a man who is charged with selling obscene postal cards. Justice Trenchard read the bills of indictment, and throwing them on his desk said: "I notice that you have not presented indictments for the illegal sale of liquor on Sunday. The assistant attorney general of the state and the prosecutor of the county have informed the court that they have placed before the jury evidence which justifies indictments in such cases. The court is forced to consider the law and the evidence presented, you grand jurors have failed in the performance of your duty and have violated your oath to stand before God and say that we feel that we have performed our duty and have not violated our oaths. We represent the will of the people of Atlantic county. We feel that we are supreme and without affront we feel that no person, however clothed with power or office, has a right to rebuke us in this manner. We are the representatives of Atlantic county, representing \$5,000,000 worth of property, do not intend that the deliberation of this jury shall be made political capital. We want nothing concealed. We want a spade called a spade. We grand jurors tried with all our might to have presented before us gambling evidence, which the prosecutor of the county caused to be published in newspapers, but we did not get it. At every turn we were throttled as grand jurors."

It is expected that Prosecutor Goldenberg will make a statement to-day.
