## RECIPROCITY AGITATION.

Comments by Secretary of the Boston Home Market Club.

Roston Mass Nov 18-The deckin of reciprocity was the occasion of remark in the report of Colonel Alber Clarke,' the secretary, at the annual meeting of the Home Market Club today. A feature of the meeting was the non-appearance of the name of Eugene N. Foss, of Boston, in the list of officers. His term as director expired this year, and he was not re elected. Mr. Foss was a candidate for congress in 1902 in the eleventh district, on a reciprocity platform, and was defeated at the poll. Secretary Clarke reports a net loss of 53 in the

membership. With reference to political matters Secretary Clarke held that the conten tion that protection is responsible for trusts had received a death blow this year by the collapse of many trusts, and that protection was not responsible for the labor difficulties and market speculation, "which chiefly have brought a check to the abounding prosperity of the last five years." On the subject of reciprocity, Colonel Clarke's report says, "Whatever strength there was and I think it was but little, to the agitation in this country for reciprocity with Canada, must be subdued by the unmis takable preference of Canada for im-perial federation." Mr. Clarke criticised the action of the Illinois manufacturers in endorsing a project in favor of reci procity between the United States and Canada. The secretary thought that reciprocity would work to the disadvan tage of farmers and fishermen, and offe no benefit to manufacturers.

### AUSTRIAN BUDGET.

Brussels Sugar Convention Said to Have Saved Country From Having a Deficit.

Vienna, Nov. 18 .- The Brussels sugar vention has resulted in preventing a deficit in the Austrian budget. The moval of bounties has saved 14,000,000 kronen, and the finance ministry expects a gain of nearly 7,600,000 kronen more y the increase of the sugar duties owing o greater consumption following the reduction in price. Another saving of 7.200,000 krozen has been effected through the conversion of Austrian centes. Even allowing for this total savng, the budget is generally regarded as unsatisfactory, and as being framed on artificial lines in order to show a surolus. The revenues on taxes on spirits, eer and tobbacco all show a decrease owing to a reduction to consumption The political situation is unsatisfac
