

SUCCESSFUL TREATMENT OF PNEUMONIA.

The rapidly increasing prevalence of that dangerous disease, Pneumonia, is truly alarming. Until quite recently this virulent disease was considered, in the great majority of cases, as incurable, but, partly by accident, it has been discovered that *Arnica and Oil Liniment*, when used in season and properly applied is a sovereign remedy, and some quite wonderful cures have been effected by its timely use. In proof of the foregoing read carefully the following statement by a gentleman who is a prominent lawyer in Vermont:

WATERBURY, Vt., May 1st, 1886.
GENTLEMEN—In the winter of 1884-5 my wife had a very severe attack of Pneumonia. We used mustard poultices and other remedies, but they all failed to "soften" the lungs—that is to start the phlegm. We then bethought ourselves of *Arnica and Oil Liniment*, and saturated a piece of flannel, large enough to cover the lungs, with it, and applied between the shoulders, and kept the flannel hot with plates heated in the oven. We kept the flannel well saturated with the Liniment, when very soon she began to raise freely, and was much relieved. We kept the flannel saturated with the Liniment on both back and chest for about two days, when her cough was so completely loosened as to require no further treatment.

Last winter she had a similar attack which we broke up with your Liniment in the same way. We need not tell you that *Arnica and Oil Liniment* has a good reputation in our household.

Respectfully,

GEORGE W. KENNEDY.

There is no doubt in the minds of the proprietors of *Arnica and Oil Liniment* but that ninety-nine out of every hundred now fatal cases of Pneumonia might have been cured by treatment similar to that described in Mr. Kennedy's letter. Why not then guard against such possible catastrophes by having always on hand a bottle of the Liniment, ready for immediate use.

WILL CURE RHEUMATISM.

Read this Postscript to a Business Letter.

P. S.—*Arnica and Oil Liniment* is the best Liniment I ever used for all kinds of lameness, cuts, &c. In fact I cannot get along without it. It cured me of Rheumatism when all other remedies failed.

Yours respectfully,

J. J. WAGNER, Clifton, Pa.

GENTLEMEN—I have sold *Arnica and Oil Liniment* for the last seven years, and find it one of the best liniments I ever had, either for man or beast. I would not be without it.

Respectfully,

RYE, N. H., Aug. 18th, 1885.

E. C. JENNESS.

GENTLEMEN—I have a horse that is very lame, and I have faith that your *Arnica and Oil Liniment* will help her. If you will send me one dozen bottles of it, will send the money for it at once. I have used the Liniment before and know of its goodness.

Yours,

CENTRE STRAFFORD, N. H., Feb. 16th, 1886.

G. SHAW.

Messrs. Henry, Johnson & Lord:

NORTH AMHERST, Mass., Feb. 18th, 1886.

DEAR SIRS—I write in regard to your *Arnica and Oil Liniment*, which was formerly sold here by Mr. Gray, but cannot now be obtained in this village. I have used it with best results and need more very much. Where can I get it?

Very Respectfully,

WM. N. EASTMAN.
