Sheep for Saskatchewan

J. G. Robertson, Live Stock Commissioner for Saskatchewan, is leaving shortly for Ontario and the Eastern States to purchase extra choice rams and ewes for Saskatchewan farmers who wish to improve their flocks. In order to assist the farmers of the province in making a start with sheep and to increase the number of sheep in the Province, the Saskatchewan Department of Agriculture has purchased nearly two thousand young grade range ewes and these are now offered for sale on cash or credit terms. It is estimated that about two thousand more will be purchased to fill the demand from farmers

in various parts of the province. No ewes older than four years will be purchased.

In addition to these grade ewes, about two hundred Lincoln-Merino cross bred ewes have been purchased for resale, and the live stock commissioner hopes to be able to get some very choice pure bred breeding stock on his trip to the east. About 30 choice Shropshire ewes, a few of these imported, will be purchased by Mr. Robertson, with some choice Leicesters and Oxfords, and orders will be filled if possible for sheep growers who send their orders in to the Live Stock Branch of the Saskatchewan Department of Agriculture, for choice pure bred ewes or rams. All farmers wishing to buy sheep either grades or pure breeds, should communicate with the Live Stock Commissioner, and their orders will be wired to him while he is on his buying tour in the east.

Foreigners in Canada

In the subscription list of the Victory Loan the nativeborn Canadian should lead the way by going the full limit. He knows that it is up to him to provide the means to place the financial and industrial fabric of Canada on a sound and stable basis, and that just in pro-

Forni's Alpenkräuter

is a Remedy of Recognized Merit. It is distinctly different from all other medicines. It may have its limitations but it has No Substitute.

It Improves the Blood It Promotes Digestion
It Regulates the Bowels It Acts upon the Liver
It Acts on the Kidneys It Quiets the Nervous System
It Nourishes, Strengthens and Invigorates

In short, it is a family medicine in every sense of the word and ought to be found in every household.

Not sold through druggists. Supplied to the people direct by

 (Delivered in Canada free of duty)

portion as he buys Victory Bonds will the desired aim be realized.

The Victory Loan campaign, moreover, exercises a Canadianizing influence on the foreigner. The individual of foreign birth who buys Victory Bonds takes a big step in the direction of becoming a thorough Canadian. He proves his faith in Canada as the best country in which to live and work and in the great and strong country which she will become in the future. By investing in Canada the foreigner shows that he is quite satisfied with

the conditions and that he intends to stay.

In the United States leading bank experts estimate that over a million and a quarter foreigners are about to leave that country and return home, taking with them savings amounting to something like four billion dollars. The foreigners in Canada cannot do better with their savings than to lend them to the country in which they enjoy freedom and contentment and in which they are making money.

Victory Bonds are the best means for concentrating wealth in the hands of the people who make it and who may be relied on to make Canada a great and prosperous nation.

OUR ORGANISED GRAIN GROWERS

Member Asks About Pending Liberty Drive

Advised to Post Himself on Affairs of Movement Before Entering Complaints.

"Sorrow is wrought, for want of thought, as well as from want of heart," is a saying, which ought to be improvised to read: "Trouble is wrought from want of thought, more than from want of heart."

Some thing of the latter nature is to hand in a communication received at the central office from a grain growers secretary in the federal constituency of Assiniboia.

In discussing the approaching "Liberty Drive," the writer says: "We received some volumes of printed matter, and the information contained therein was to the effect that an official, or some other commodity would be heard from later with more minute details, etc., etc., but like the cat, he never came back. I am told that there was some sort of dog-banging or display of air force at Carlyle."

Now nearly all our members south of town are in Assiniboia, and different ones have been asking me regarding what was being done.

Now just when the convention is called we hear of several "d—good grits" going from this side of the mountain to represent the Grain Growers' element at Carlyle. And behold, in search of the records we do not find so much as five dollars from the whole outfit contributed in membership in the last ten years. I tried to get some real members to go down but they said "to h— with the outfit." If they do not let us know "where we are at" from central, we have no right to but in. "Where are we at?"

P.S.—Members tell me of a man soliciting donations that does not even belong to our association.

"We are in receipt of your communication of the 25th inst. with respect to political action, for which we thank you. Since receiving your letter we have verified the fact that your local is on our mailing list, and that being the case you must have received all the literature which has been sent out from this office dealing with this matter. If, therefore, you are not up-to-date with respect to this movement we

are justified in inferring that it is because you have not taken the trouble to read what has been sent you."

"In the first place this movement is not being carried on by the association, a separate body having been elected by the constituency executives for the purpose, therefore, there is no reason why an attempt should be made to confine it to members only of the Grain Growers' Association, nor would it be at all wise to so confine it. If the movement is to succeed it must comprise all who are in favor of the farmers or members of the association or not. If the farmer wish to have the principles of the Farmers' Platform put into effect are they to turn around to others and say: 'We will not allow you to help us. Surely it will be far better to say: 'Come over and help us,' and that is what they are doing."

"When the movement was instituted, the association acted as a medium for getting the supporters of the Farmers' Platform together in conventions, which were called in every constituency in the province. Every local in the association was asked to pay the expenses of these conventions, and to send representatives thereto. Your own local would receive this invitation along with the rest, and you had therefore an opportunity to have an effective voice in electing the constituency committee and deciding the policy to be adopted. If you did not have such a voice, who is to blame? We are enclosing herewith a copy of a circular which we sent out to all our locals last month, and would ask you to do us the honor of reading it, as it will bring you right up-to-date."

"You state that just when the convention—meaning probably the Assiniboia convention—is called, you hear of several good 'grits' going down to Carlyle." We do not doubt it, nor do we doubt that there were many good "tories" there also. The explanation of this is that these people are forgetting

THIS WEAK, NERVOUS MOTHER

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Philadelphia, Pa. — "I was very weak, always tired, my back ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which added to my weak condition, kept me worrying most of the time — and he said if I could not stop that, I could not get well. I heard so much about Lydia E. Pinkham's Vegetable Compound my husband wanted me to try it. I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness." — Mrs. J. WORTHMAN, 2842 North Taylor St., Philadelphia, Pa.

The majority of mothers nowadays overdo, there are so many demands upon their time and strength; the result is invariably a weakened, run-down, nervous condition with headaches, backache, irritability and depression—and soon more serious ailments develop. It is at such periods in life that Lydia E. Pinkham's Vegetable Compound will restore a normal healthy condition, as it did to Mrs. Worthman.

their grist and their toryism in the face of a common enemy. That is where the hope of this movement lies, that all classes are willing to drop their past party affiliations and unite their forces for the common good. May we not count on your people to do the same? Never mind for the time being whether a man is a member of the association or not; if he is helping to defeat the objects of those who are exploiting members and non-members alike, join forces with him. You may be sure he will be given the opportunity eventually of coming inside the association and we do not think he will refuse when the matter is put squarely up to him.

"You ask 'Where are we at?' We answer, you are 'at' just the point where you have placed yourselves, and from now on you MAY be wherever you care to put yourselves on this question. If you are in favor of the Farmers' Platform, some copies of which we send you herewith, come in with those of us who also are believers in it; if you are not in favor of it, then do not complain."
