A Heavy Rain and Thunder Storm at Truro.

A New Baptist Church at Amherst be Dedicated Sept. 1st.

TRURO, Aug. 20.—A heavy easterly rain storm, with heavy thunder at the commencement, set in here about 11 o'clock Sunday night, and continued with but short intervals between the showers for some twelve hours. Two and a half inches of rain fell, and the streams, which had been quite low, were yesterday running banks full. From 8 o'clock to 10 Monday morning an unusually strong easterly gale prevailed, that shook the buildings and did considerable damage to the crops through the country. The apple crop suffered the most, and nearly all the fruit is stripped from the trees that were standing in exposed places.

BRIDGETOWN, Aug. 22.—On Sunday evening, Sept. 1st, the Rev. Mr. Teasdale, of the Trinity Church, will preach the opening sermon in the new Baptist church at Amherst. The church was dedicated on Sept. 1st. The Rev. Mr. Teasdale will preach the opening sermon in the new Baptist church at Amherst. The church was dedicated on Sept. 1st.

AMHERST, N. S., Aug. 20.—A strike commenced this morning at Joggins Mines and all slopes are idle. The trouble is said to be the refusal of the men to work for coal at the old rate in force nearly two years ago.

The extraordinary heavy rains and freshets of Sunday night, although doing some little damage, have done a large amount of good, enabling J. S. Hickman to get down ten thousand logs and three hundred thousand deals which were up-land.

Amherst, Aug. 21.—The new Baptist church will be formally dedicated to the worship of God on Sunday, September 1st next. The opening sermon in the morning will be delivered by Rev. A. W. Sawyer of Acadia college.

In the afternoon Rev. G. O. Gates of German street Baptist church, St. John, will preach in the evening. Rev. W. W. Weeks of Moncton will deliver the final sermon of the day. The music will be by a select choir under the leadership of Prof. Rosen-dahl, band master of the Amherst military band.

The handsome stained glass windows are now receiving their final touches at the hands of the painter. On the Victoria street side the large window in the centre is known as the Deacons' Window and is the gift of six deacons, Messrs A. Torry Bent, T. R. Black, W. M. Read, M. D. Pridie, George W. Christie, and to the memory of Moses Lowe.

On the right of this, looking outward, is the Tupper Memorial Window, the gift of Sir Charles Tupper, in memory of his father, Rev. Charles Tupper, born 1794, died 1881. On the left of the Deacons' Window is a gift window from G. Botsford Smith, and next to the east tower, is a window, to be the gift of N. A. Rhodes. The glass for this has not yet arrived.

The large window at the rear is the gift of W. A. March of Quebec, in memory of his father, Rev. Mr. March, who was pastor of the Quebec Baptist church for 40 years.

On the right of the Deacons' Window is a handsome window, the gift of Mrs. Amelia Embree Black, in memory of her father, mother, husband and sister.

Another substantial gift is that of Mrs. W. M. Read, who has presented four silver collection plates to be used on the opening day.

A SEVENTH OF NEW YORK'S POPULATION.

The Jews number fully one-seventh of the city population, and whenever steps are taken to appeal to the sects in any way, and sectarian representatives are included in the movement, it is unjust not to ask the Jews as well as the Catholics and others to be included.—Jewish Messenger.

IT WAS A PICNIC. Willie—Did you have a good time to the picnic? Hamie—Great! Sis got into a bee's nest, pe fell out of a tree when he was putting up a swing, an' ma burned her fingers making tea in an open fire. It was immense!—New York Truth.

WANTED KEEPING. Lady (sampling soup)—I don't like the odor of this. Have you no other? Clerk—Oh, yes, I have the "Sweet-by-and-by." It's a new kind, and only lately out.

Lady—Well, it may be sweet by-and-by, but it is simply frightful now.

One of the most remarkable churches is to be found at Freudenthal in the Black Forest. It is built on such a plan that the men are unable to see the women, and vice versa, for it is composed of two wings, which meet at an angle where the pulpit stands. The right wing is allotted to men and the left one to women of the congregation.

From the top of the cathedral spire in Mexico you can see the entire city, and the most striking feature of the view is the absence of chimneys. There is not a chimney in all Mexico, not a grate, not a stove, nor a furnace. All the cooking is done with charcoal in Dutch ovens.

CHURCH PARADES.

The 62nd Fusiliers attended divine service at St. Andrew's church yesterday morning. The corps paraded at the drill shed shortly after 10 o'clock, and headed by the brass and bugle bands marched to the church. The men looked well and marched in good style. The church was filled with people, the battalions and bands occupying the side galleries. The sermon was preached by the pastor, Rev. L. G. Macneill from Ps. lx., 4th verse: "Thou hast given a banner to them that fear Thee."

A large number of the members of the Loyal Orange association attended service Sunday afternoon in Centenary church. Members of the lodges in east and west sides formed at Orange building on German street, and headed by the Carleton Cornet band, marched to Orange hall on Simonds street, north end. Here they were joined by the Fairville and north end contingents, with the file and drum band. Here they again formed and marched to Centenary church. There was a large turnout and they looked very well.

Rev. Mr. Teasdale welcomed the members of the order heartily in behalf of the trustees of the church. His address was well calculated to please those for whom it was especially intended. The speaker said this was regarded as a peaceful age; it was so peaceful that men told us that there was no need of such an organization as was represented; it was so peaceful that men said, and he had heard them, that the reformation and the great work of Martin Luther were in vain. And when they said these things, the speaker said, they reminded him of the lion in his lair or of the wolf just before his spring. This was a peaceful age, it was a strangely peaceful age, and he did not think there was an age when there was more need to be watchful. Eternal vigilance should characterize the members of the Orange association. The speaker said many persons entertained a false impression with respect to the Orange association, as he did himself when he was a lad. He had an idea that they were jealousy and hatred personified, that the members of the Roman church were their eternal enemies, but he was glad to say that he had changed his idea with regard to the Orange association. Mr. Teasdale then read a paragraph from an official document showing that the basic principle of the order were equal rights and freedom for all, or broad sympathy towards every man, whether a member of the order or not, and loyalty and fidelity to Christian religion. The speaker said he thought this would prove an eye-opener to many persons. When advice were given, it behoved them to turn and see from whom it came. The words of Jesus Christ had produced noble, intelligent, and worthy men, just what this age needed. If they thought that the religion of Buddha would produce greater and better results along this line, then they would change the Christian religion to that of Buddha or Confucius. Was this so? Before even an Anglo-Saxon had a decent suit of clothes, China had her looms, printing, bricks and many other inventions which the people of this age deemed necessary to their well-being. But what of China today? Had that religion sufficed to produce men that this age needed? The Orange order was founded on the principles of true Christianity, and having the religion of Jesus Christ as a cornerstone it was bound to succeed as long as its members respected these principles and lived up to the laws laid down in their constitutions. And if they did this, he had no hesitation in saying they would be better and nobler men for having done so.

In conclusion, Mr. Teasdale urged the members of the order to be true to themselves, to be loyal to their country and truthful to their God. Their honored sires had left them a noble heritage; it remained for them to guard it well.

P. E. ISLAND.

Charlottetown, Aug. 12.—A representative meeting of Christian Endeavorers held last night decided unanimously to invite the maritime union to hold its next annual convention in this city.

Rev. E. H. Spango of Murray Harbor has strained his back and lost the entire use of his right eye. It may be some time before he can resume his work.

A curious accident is reported from Carleton. Wm. Gillespie, about the first of July was sewing a piece of cloth on the horn of a cow, when the animal jerked its head and forced the needle into the region of Mr. Gillespie's heart, breaking it and leaving about two inches of the darned needle in his breast. The needle, however, struck a rib and glided towards the side. About two weeks ago Dr. Doherty of Cape Traverse probed for the needle and removed it from the side, directly under the armpit.

Hallfax, N. S., Aug. 23.—Jos. Arsenault, 30, married, and Camille Gallant, 16, single, were drowned at Egmont Bay, P. E. I., this afternoon while fishing by their boat being upset by a squall.

"CANNOT BE VALUED TOO HIGHLY." MR. GEORGE McLELLAN, of Bass River, N. S., declares: "I have used PRUSSIAN OIL for Indigestion, Biliousness and Dyspepsia, with pains in my side, also for Bronchitis, and am sure that it is the best medicine that I have ever used. It acts so quickly and surely that it cannot be too highly valued."

MR. BALDWIN TUTTLE of same place writes: "I have also used it for Rheumatism and pains in the neck, back and shoulders, and find it an excellent medicine." Price only 25 cents a bottle.

VALUABLE CANADIANS.

(Toronto Star.) If Canada could produce a Hanlan and a Hayhurst but once a year it would be the best advertised country in the world. It is the best country as it is, notwithstanding the blue ruin shouters who try to belittle it.

THE KNIGHTS TEMPLAR.

Boston Commanderies Busy all Day Receiving Their Visitors.

The Golden Gate Delegation Arrive With Their Cinnamon Bear.

Special Knights Templar Service at Trinity Church—A Big Day at the Hub

Boston, Aug. 25.—The local commanderies of the Knights Templars have been on the alert all day looking after the welfare and comfort of their fellow knights, who have been coming here from several parts of the country and tedious journey from the south and west. The trains with one exception were from one to three hours late, but when they arrived their welcome was such that any discomforts or inconveniences had encountered were banished.

At the Union station a scene was presented that had never been witnessed in this city on a Sabbath before. A vast crowd of spectators cheered each delegation and the strains of music from the bands of the escorting commanderies enlivened the tedious wait. The first delegation to arrive over the Fitchburg road was the Pittsburg commandery of Pittsburg, which numbered one hundred knights and their ladies. They were met with Masonic honors and escorted to their headquarters. The Astor commandery brought seventy knights and ladies from St. Louis. The chief arrivals today was that of Grand Master McCurdy, who, with one hundred and ninety-eight knights and ladies from Detroit commandery of Detroit, Mich., arrived here shortly after 10 o'clock. This commandery is noted as the crack regiment in the drill contests, and will be the first to start in on Wednesday's reception.

This afternoon a train of twelve cars containing Iowa delegates to the number of three hundred knights and ladies were warmly welcomed. The delegates that excited the most enthusiastic excitement proved very fatiguing and necessitated taking rest, so that I was entirely incapacitated for business. I was under a doctor's care for over six months, and not receiving the benefit had hoped for, and hearing much of Dr. Agnew's Cure for the Heart, I asked my physician about taking it, which he advised me to do. The use of the remedy brought results I had scarcely dared to hope for, and I am now able to attend to business, and do most heartily recommend this remedy to all who suffer from heart complaint. Dr. Agnew's Cure for the Heart relieves in 30 minutes and thus has been the means of saving thousands of lives.

CHINESE CONVERTS

Were Butchered When the American Mission Outside of Foo Chow Was Attacked.

London, Aug. 23.—A special despatch received here from Shanghai says that many Chinese converts were butchered when the American mission outside Foo Chow was attacked and the chapel and school wrecked by an infuriated mob during the morning of Aug. 22.

Commander Newell of the United States cruiser Detroit has gone to Cheng Tu to consult with J. C. Dixon, United States consul at Foo Chow about the landing of marines for his protection and for the protection of the members of the commission investigating the massacres, as the latter are practically prisoners. The despatch adds that the Chinese officials are jubilant at the defeat of the efforts of the American and British consuls to obtain an open inquiry into the massacre. It is also said that the delay is giving the Chinese time to prepare a defense of the prisoners.

SOLICITOR GENERAL.

London, Aug. 23.—R. B. Findley, Q. C., liberal unionist member for Invernesshire, has been appointed solicitor general.

DANGEROUS RESULTS SURE TO FOLLOW.

Neglect of Kidney Trouble—South American Kidney Cure is a Remedy that quickly eradicates Kidney Trouble in any of its Stages. It is an unfortunate blunder to allow disease of the kidneys to obtain a hold in the system. The disease is of that character that leads to many serious complications which too often end fatally. The starting point of South American Kidney Cure is that it drives this disease out of the system, whether taken in its incipient stages or after it has more nearly approached a chronic condition. The medicine is a medicine easy to take, yet thoroughly effective, and what is encouraging to the patient, the results of its use are made manifest almost immediately. As a matter of fact, this medicine will relieve distressing kidney and bladder diseases in six hours.

Before Judge Tuck at chambers on the 21st inst, an application was made in the matter of the St. Lawrence Lumber Co. by Mr. Fitzpatrick of Quebec to have allowed as a preference claim the demand of several Quebec creditors. It appears that by the law of Quebec when goods are sold on credit that the non-payment at the time due reverts the property in the vendors, under the circumstances that these goods were sold to the company. The creditors, however, allowed the liquidators to retain the goods and claim this in a sale to the liquidators, hence their claim to be paid in full. C. J. Coster appeared for the liquidators. Judgment reserved.

MANSLAUGHTER HARGED.

Chatham, Aug. 20.—At the inquest into the death of Rhoda K. Stewart, this morning, there were two witnesses examined—Dr. Joseph B. Benson and William Sinnott, laborer. Dr. Benson's evidence was to the effect that the blow on the face received by the deceased might have killed her, but at any rate it would produce insensibility and when she fell into the water she would have no chance of escape. Sinnott gave an account of the collision, which tallied with the evidence of former witnesses. The verdict of the jury was manslaughter against Capt. DeGrace, of the Miramichi, and William Tait, the deckhand, who was at the wheel at the time of the accident.

POLICE METHODS IN TWO BIG CITIES.

District Attorney Fellows has offered New York's police force and other influential organizations by comparing police methods in that city with those in the leading cities of Europe. He says that the people of European cities enjoy a much wider measure of personal liberty than is allowed in New York. During a long stay in London he never saw or heard of a policeman clubbing a citizen, a sight not uncommon in the American metropolis.

A HANDSOME BOAT.

A little time ago Charles T. Hillyard a pleasure boat of which gentlemen are very proud. She is a lapstreak boat of the following dimensions: Length over all, 23 1/2 inches; breadth amidships, 46 1/2 inches; depth, 18 inches. She is built of pine and bass wood, with gunwales of pine and cedar, finished in cedar, nickel trimmings. The boat is fastened throughout. Her weight is less than 200 pounds, so that she is easily handled. She is a good sailer, being able to accommodate four or five persons. Mr. Hillyard's friends who have already enjoyed a row in the boat declare that she is the most comfortable of her size they have ever sat in. The boat has been made to present as an appearance as possible, as she has been beautifully painted. She has christened the Hilda, after one of Hillyard's little nieces.
