## FLAT BULLET.

Mumford's Arm.

Floor-Disappearance of the

BOSTON, May 13.—With a loaded 38-calibre revolver in his hand, Frank Bell, 29 years old, of 48 Brighton street, drove his old-time friend, Tony Mumford, out of the house, down into the street, where he finally shot him through the left arm, and then ran away. This happened last evening shortly after 10 o'clock, and now Bell is charged with assault and battery upon Tony, with a loaded revolver, and with an intent to kill.

Up to yesterday afternoon Mumford has lived with the Bells on Brighton street. There was some trouble between the two men, and the fact that Frank was going to take up residence

at 137 Chambers street did not heal the breach. Then there was Mrs. Mumford.

Mrs. Mumford went away about three weeks ago, and has not been seen since. Mr. Mumford is not sorry for this, and declares that he will be just as comfortable and peaceful if he never sees her again; but what has galled him is the belief that she went away at the solicitation of Bell.

Mumford's version of the affair is that he was sitting at the table about 9,30 last evening when Bell came in Some words followed relative to the family troubles of both men, and then there was a mixup, in which both men used their fists. Finally Mumford forced his opponent into the street, where he pulled the gun and fired once. Once was emough. The bullet entered Bell's arm, pierced it, and struck him just above the heart, making a slight flesh wound.

flesh wound.

Bell's story is somewhat different. He says he went back to the old domicile to get some things that had been left during the moving operations. He went into a closet for some of the stuff and Mumford followed him there and selzed him by the throat. Then there was a struggle, and Bell shows a bruised eye as evidence that Mumford used him rather roughly. Suddenly Bell got free, drew the pistol from his pocket, and fired, he says, in self-defence.

After the shot was fired Bell ran down Chambers street to Spring street.

Mumford is held as a witness. When the injured man was taken to the relief hospital in Haymarket square, and was being undressed, the bullet fell out from where it had been imbedded in his underclothing, to the floor. The top of the leaden missile was flattened as though it had struck a piece of iron. Both men are Italians.

AGAINST REGRIPROCITY.

Dr. W. B. McVey, the Principal Speaker at the Smoke Talk of the Canadian Club.

BOSTON, May 13.—Dr. W. B. McVey was the principal speaker at the third "smoker" this season of the Canadian Club of Boston, which was held last night at the Copley square hotel. He talked on the development of the resources of New Brunswick, and incidentally took a strong stand against reciprocity with the United States. He said it suggested the absorption of the smaller country by the larger, and continued:

erican friends reciprocity! We may well ask why it is they are so anxious now for it. A careful analysis of the

"If such a scheme as reciprocity could be put through the open market to relieve the glut would be at once provided. In 1902 the United States shipped to England about \$400,000,000, on which she paid a maximum duty of 6 per cent. England sent the United States \$44,000,000, on which she paid 35 per cent, maximum. Talk about fairness in trade."

Board of Trade.

Wednesday's Proceedings at Ottawa Show No Determination to But still Insists That the Dominion is Extend the Line to the Maritime Provinces------Fowler's Pertinent Inquiries.

TORONTO. May 13.—Chaques and vouchers of the Ontario bank referring to the Gamey case were presented to the Gamey case of Game

for passengers and any surplus freight that might offer. He did not know that the I. C. R. desired through business, as it could not be profitably handled. He had no doubt that the sovernment could arrange matters with Hays so that all Canadian ports would be used. In answer to Mr. Pringie he said he had every reason to suppose that the proposed railway commission could compel the Grand Trunk Pacific to refrain from discriminating against Canadian outlets.

Mr. Hays then expressed his willingness to secure an entry to St. John and Moncton.

## CARNEGIE TAKES BACK

**Remarks Regarding** 

Ganada.

OTTAWA, May 18.

W. M. Jarvis,

St. John, N. B.:

St. John, N. B.:

Believe that in case government gives financial assistance the Grand Trunk Pacific will be obliged either to enter into a satisfactory traffic agreement binding itself to hand over at Quebec its ocean winter traffic to intercolonial or build a line through to a maritime province to port. Have been doing everything possible to bring this was making more steel than the rest was making more steel than the rest in which had industry of Cape Breton was a "mirring age." Mr. Carnegle said to a representative of the Associated Press to day that he was very sorry if anything he said had hurt the feelings of his Canadian friends. He had no desire to underrate Canada's efforts, did not remember using the word "mirring age." and said that it was wholly inapplicable. Mr. Carnegle knew they were making steel or intended to make dinished steel in Nova Scotia. He had no doubt they would succeed. On the other hand, it was ridiculous to compare what five million people could do with what could be achieved by the solonom or the control of the Associated Press to day that he was very sorry if anything he said had hurt the feelings of his Canadian friends. He had no desire to underrate Canada's efforts, did not remember using the word "mirring age." and said that it was wholly inapplicable. Mr. Carnegle said to a representative of the Associated Press to day that he was very sorry if anything he said had hurt the feelings of his Canadian friends.
