THE SEMI-WEEKLY SUN.

ST. JOHN, N. B., JULY 23, 1904.

THIS IS BUSINESS.

As was expected the report of the imperial tariff commission supports Mr. Chamberlain's tariff reform policy, though several of the commissioners must have gone into the investigation without any partiality for that view.

The commissioners propose a remedy which is partly an imitation of the French and German systems. They recommend several classes of tariffs to be applied in varying circumstances.

Lowest of all would be the tariff on goods from those colonies or parts of the empire over sea, which give a preference to goods from Great Britain.

Next would come those parts of the empire which do not give a British preference. A third scale would be applied to foreign countries which reciprocate by concessions to Great Britain.

Finally it is proposed to establish a maximum tariff on goods from foreign countries which protect themselves against Great Britain and refuse to make concessions.

tries making a like return to call it a reciprocal tariff than to describe it as retaliation. The courteous term is also more correct.

Again the general plan laid down by the commission would be a long step in the way of the closer commercial organization of the empire. It is proposed that goods from within the empire shall be admitted on better terms than foreign goods.

But it is proposed that there shall be better terms to those colonies which give Great Britain a preference than to those which treat foreign countries as well as the mother country.

In other words it is recommended that there shall be a maximum and minimum tariff on foreign goods and a maximum and minimum tariff on colonial products.

If Lord Salisbury were alive he would be fair enough to say that this is business.

THE END OF IT.

The last act in the tragedy of George Gee's life ended early Friday morning. Pity for his victim does not exclude pity for the lad whose career was so complete a failure.

Whatever may be said about Lord Dundonald's Montreal speech there can be no doubt that Solicitor General Lemieux's speech in England was bad in every way.

Honor is still heaped upon Lord Dundonald. Mr. Stead, Mr. Lloyd George, the Manchester Guardian, the New Age, and other friends of the enemies of Britain in the late war join the Canadian government in assailing him.

Mr. Lemieux is the candidate who engaged his father, a member of the civil service, to act under a false name as his representative.

The western meek strike has been settled. Work will be resumed and the wage scale is to be submitted to arbitration.

AWFUL THIN PEOPLE RUN GREAT RISK.

When the body is thin the resistance to disease germs is lessened. Invariably consumption takes root in people who are thin. It's a danger. Thinness in this land of plenty is sheer wickedness, especially when it can be so easily removed by Ferrozene.

RUSSIAN AND BRITISH SHIPPING.

It is not to be supposed that Russia seizes and searches British mail steamships for amusement. The authorities thought that they had reason for suspicion. International law and usage are not clearly defined as to contraband of war, the changes in war numbers and material making a concession contraband which would not have been so a generation ago.

A VERY TME FF. R.

People of Centreville Did Not Learn Much About the New Road Act.

CENTREVILLE, July 20.—At the meeting in the Opera House here last night G. Cronkite was elected to the chair. The first speaker was W. P. Jones, M. P. P., complimenting the government for sending men to educate the people on fruit culture and road making.

Hon. Mr. Jones occupied fifteen minutes in trying to inform the audience how to raise fruit, prepare the ground and care for the trees.

Hon. Mr. Lablitts gave the new road act his attention, and when he concluded his address his intelligent audience were as wise as they were when he commenced so far as any improvement in its workings when compared with the previous act of 1896.

The Ottawa council by a vote of 12 to 7 has decided to call one of the breathing spots at the capital Dundonald park. Before Lord Dundonald was dismissed the proposal was made, and a majority of the aldermen persisted in carrying it out, though a minority held that in view of recent events some other name should be taken.

If any one supposed that the attack of 20,000 Russians on the Japanese at Mottan Pass and the subsequent retreat with a loss of 2,000 men was a defeat of the Russians he was mistaken. We learn from St. Petersburg that it was a reconnaissance in force for the purpose of discovering the strength of the enemy.

HAS A DIAMOND.

Fred S. Millican of St. John Honored in Maryland.

Conductor Millican has a son who wears a diamond ring. The son's name is Fred, and he is the eldest of the family. The ring is a nice one and was given to him a few days ago by some big labor organization.

It happened in this way: Almost twenty years ago Fred S. Millican left St. John and went to the States to seek his fortune.

Mr. Millican is the candidate who engaged his father, a member of the civil service, to act under a false name as his representative.

The western meek strike has been settled. Work will be resumed and the wage scale is to be submitted to arbitration.
