WEDNESDAY, AUGUST 12, 1908

Hon. H. R. Emmerson recently addressed a large and enthusiastic meeting at Port Elgin. During the course of his remarks Mr. Emmerson urged upon the club members the necessity of vigorous preparation for the coming election which cannot be long delayed at the most. He dwelt upon the benefits of thorough organization and the great part played by organization in winning battles at the polls. In the course of his address Mr. Emmerson also drew attention to the great progress that has been made by the Dominion under Liberal rule. The population has increased, the people have become more prosperous, new stretches of territory have been opened up, transportation facilities have been improved, Canada's position among the nations of the world has been wonderfully improved. This progress has been due, he said, in very large measure to the wise policy of the Liberal party and the effective manner in which the policy has been put into action. Mr. Emmerson further dwelt upon the strength of the Liberal leader, Sir Wilfrid Laurier, who has become an Imperial figure by his statesmanlike, honorable course during the twelve years in which he has been at the head of the government of the Empire's greatest colony.

Mr. Emmerson told also of the certainty of Liberal success in the next campaign. Everywhere, he said, the outlook is bright for a repetition of the triumph of four years ago. Sir Wilfrid still has a firm hold upon the people of the Dominion and his wise policy and honest administration renders victory once more certain.

A TRIPPLE LINK?

On the Plains of Abraham at the Quebec Tercentenary they clasp hands, Great Britain in her Prince, United States in her Vice-President, and France in her Admiral—three of the most powerful nations of the day, and which combined could command the peace of the world. This meeting is no mere incident, it means something to the other nations of the world. Enemies in 1759, enemies in 1812, friends in 1908 and together they now stand in close relationship, and may be depended upon in any emergency effecting such an alliance.

While the celebration was not primarily intended to teach any such lesson, it may be taken for granted that there is an understanding which means much, and the other nations so read the lesson of the "triple link."

Who can say Senator Gillmor did not do well for Charlotte? Read again the supplementaries for Charlotte in our issue of July 15th. Fifty-six thousand! Not too bad for a County that has blindly placed itself in Opposition. When will this old Liberal County wake up and look out for its own best interests? To do so it must get into the procession that Sir Wilfrid Laurier will lead to Ottawa at the next election.

It is reported that Hon. G. E. Foster will make a tour of the province of Nova Scotia during this month, speaking at Springhill, Truro, Digby, Windsor, New Glasgow and Sydney. Why does the Hon. G. E. so studiously avoid New Brunswick?

BY THE WAY

Hundreds of new J. P.'s! Here's to you, but may we never need you.

May we ask when the street improvements will be completed?

The importation of Scotch granite will be continued with renewed energy.

"Mosquitoes do not dare to look man in the eye." They don't have to. They can bite him behind the ear.

Before many months evidence of the faithful services rendered by Senator Gillmor will be found in almost every district of Charlotte.

We rather think the fishermen's picnic was a success Mr. —.

"Organization is sure protection for the unprotected."

"Fishermen's rights must be respected. 'All we ask is a fair deal.' Sentiments expressed on banners around town picnic day."

The street committee receiving valuable suggestions as to how they can spend about \$1200.00 of the \$700.00 that has been appropriated.

A man who is rough and awkward at everything else will show a delicacy and skill greater than any woman's when he has to patch a \$10 bill.

Should Sir Wilfrid Laurier make a western campaign the task of following him will be assigned to Hon. G. E. Foster. Of course, Sir Wilfrid leads as usual.

The intelligent "working man," so called, is not to be driven like a sheep, with a flock. He is a man first, a "laborer" afterwards. And he will do what he thinks best.

Our local representatives were keenly alive to the importance of good roads some months ago. Evidently their ardor has cooled somewhat. And the roads? We got a gold brick all right.

"The first and paramount thing in any business is to make and ship a reliable article. If an article is manufactured according to contract it will most assuredly credit a demand for another like it."

"As a matter of fact it was not until Mr. Tweedie began his new life with the Liberal party that he decided to pay the principal. This goes to show what the influence of good company and better associations will do for a man."

One hears nowadays about raising teachers' salaries, but not so much about raising qualifications. Poor teachers are not getting more than they are worth. It is only the good teachers that deserve more money.

"George," she said, "before we were married you were always giving me presents. Why don't you ever bring me anything now?"

"My dear," replied George, "did you ever hear of a fisherman giving bait to a fish he had caught?" Then the kettle boiled over.

Many persons still enjoy the good old fashioned fun of going berrying. The blueberries are here once more.

With succulence they are replete, and housewife visits nearby store to purchase them instead of meat.

Fills picnic with a quart or more. Just as our mothers used to do. Then says to kidslets o'er and o'er, "Don't stain the cloth, I beg of you."

Many flattering words were heard on Monday with reference to the beauty of the town. These little compliments came from strangers. The horticultural garden at the corner of Lower and Portage streets—Murphy's corner—although in full bloom, is not as attractive as it might be, not having the apparent care that is given the lawns. With a little effort, the spot could be put in a condition that would call for more commendation.

In the Canadian Parliamentary as late as 1901 we find Governor Tweedie describing himself as a "Conservative." He threw in his fortunes with the Liberal party shortly after that date and in 1906 when a Liberal he paid the face of the notes although not holding himself in any way liable for them. The Hazen government is now asking him to pay up the interest as it holds that his payment of the principal make him a responsible party for the interest as well. This in brief is the transaction. There is not much rottenness about it, but it gives evidence of negligence with the people's money, but how under the heavens can the act of a man who was a life long Tory be described as an act of rottenness of the Liberal party.
