If You Want to Buy or Sell REAL ESTATE

Communicate with D. B. DONALD, Bank of Montreal Building, Phone, M. 1922, St. John, N. B.

Would you like to meet the man who owns a factory just like the one you intend to build?

You'd ask him how it was designed, what it cost, what materials he used, why he used them, how satisfied he has been with his investment—you'd probably fire questions at him for an hour.

—and then you'd want to see the building itself.

You might travel a thousand miles to meet that man and then find him too busy to talk to you.

But you can get all he knows without moving from the chair you're sitting in. Turn to your stenographer and dictate a note requesting a free copy of

"Factories and Warehouses of Concrete"

Return mail will bring you a book containing every scrap of information you could desire—from the man who has built a factory just like the one you are planning.

Yes, just like it, because over 235 factories and warehouses, housing 97 separate industries are described and illustrated with photographs.

Every question you would ask is answered—not in generalities, but in specific facts and figures.

It's a handsome book, as befits the most complete and authoritative publication on reinforced concrete factory and warehouse construction ever written. No dry-as-dust treatise for engineers, but a frank, plain description of reinforced concrete construction for business men.

Tell your stenographer to enclose 12 cents in stamps for postage ADDRESS: PUBLICITY MANAGER, CANADA CEMENT COMPANY LIMITED

EVANS ON STOCKS

(F. B. McCURDY & CO.) New York, N. Y., March 26.—Europe considers that the fall of Adrianople and the markets there are all buoyant in consequence. This is apt to be reflected by a further covering movement here, and a general advance all along the line. Just how far this advance will go depends merely on the size of the short interest. If this is as large as many people think, quite a sharp rise may be seen all along the line in the next few days.
