

There's A Reason Why You Should Be Here This Week. Find It Below

Remnants of Dress Goods.—Hundreds of remnants have accumulated in our Dress Goods Department. Out they go this week at prices that will call for early shopping. Included are Shirtings, Broadcloths, Flannels, Serges and Silks. The important part of this lot will be the prices. Make your selection early.

Flannelette Blankets.—A bargain this week. Large size Flannelette Blankets, splendid quality, grey or white, with blue and pink borders, \$2.38 per pair. These blankets are extra good quality.

Ladies' Greatest Coat Values.—Beautiful fur-trimmed models, plain cloth styles and actual values, \$19.50 and \$25.00, all sizes, scores of pretty styles. Every good material, \$29.50, all the best colors.

Women's Pure Wool Sport Hose.—English made pure wool Sport Hose, in fancy wide ribbed style, seamless make, nigger brown, putty, camel navy and heather, sizes 8 1-2 to 10, per pair \$1.25.

A Big Assortment of Ladies' Fall Sport Hats.

Fall Opening Week.—Men, you can always shop with confidence at Mayhew's. One of the greatest assets in business is to have the people come to your store to buy all their necessary wants, because they feel and know that they can do better there than elsewhere. To always merit this confidence is our constant aim.

Men's New Fall Suits.—Made from favorite materials, best quality, excellent workmanship, and ranging in price from \$15.00 to \$35.00.

Men's New Overcoats.—Best overcoat value ever offered. All-wool materials, latest styles, \$15.00 to \$27.50.

Men, the last thing in Hats and Caps will be found here and at the lowest possible prices.

Specials in New Fall Shoes.

E. A. MAYHEW & CO.

What did the centurion at Capernaum say to Jesus, and what answer did Jesus give him?—Matt. 8: 5-13.

WARDSVILLE

Miss Jennie Rogers, of Weyburn, is visiting Miss Maggie Archer. Misses Helen Aitchison and Winnifred Parnall gave an account of the summer school at St. Thomas at a meeting of the young people held at the Presbyterian church on Friday evening.

Mr. and Mrs. Reader and two sons, of Alvinston, and Mr. and Mrs. Marks, of Weyburn, spent Sunday at the home of Mr. and Mrs. J. Fitzpatrick.

Rev. Dr. D. T. McCrae, of London, was the special preacher in the Presbyterian church on Sunday. Children's Day was also celebrated in the Presbyterian church. Miss Jessie O'Neill and the Carmen girls sang solos.

Mr. and Mrs. Miller, of Alpena, are visiting Mr. and Mrs. Charles Miller. Miss Maud Murphy left on Monday for her second year's work at Toronto University.

Mr. and Mrs. Jim Mulligan and children, of St. Thomas, spent Sunday at Mrs. Elliott's and with other friends in the village.

Rev. R. J. Murphy occupied the pulpit in the English church at Florence on Sunday.

A meeting of the young people of St. James' church was held at the rectory on Friday evening for the purpose of reorganizing for the coming year. Officers were elected as follows:—President, James O'Hara; vice-president, Howard Willis; secretary, Ava Weir; treasurer, Albert Constant; pianist, Loraine Henderson. Rev. Mr. Streeter, of Florence, was the minister in St. James' church on Sunday.

A number from here attended the Harvest Home services in the English church at Newbury on Sunday. Henry Archer is improving the appearance of his house by erecting a veranda.

Internally and Externally it is Good.—The crowning property of Dr. Thomas' Electric Oil is that it can be used internally for many complaints as well as externally. For sore throat, croup, whooping cough, pains in the chest, colic and many kindred ailments it has qualities that are unsurpassed. A bottle of it costs little and there is no loss in always having it at hand.

NEWBURY

Mr. and Mrs. N. H. Hendershott gave a delightful farewell party at their home on Friday evening for Miss Margaret Bayne, Adair Bayne and Harold Fennell, who left on Monday of this week for Toronto to attend the university.

Wm. Bayne was in Toronto this week.

A. M. Vail and wife, of Edmonton, were in town on Monday calling on their many friends.

Mr. and Mrs. Bruce, of Detroit, and Mr. and Mrs. Ralph Orelle, of Sandusky, Ohio, visited Mrs. Crim last week.

Mrs. Fogler returned home to Petrolia on Sunday after visiting her sister, Mrs. Jeffery.

Rev. Dr. McCrae, of London, gave an excellent address in Knox church on Sunday at the Children's Day service.

Miss Bessie Fennell, of the Deaconess Training School, Toronto, spent the past week at her home here.

W. H. Merritt, wife and daughter Lulu, Miss Ed. Gibb and A. Washburn left on Sunday for Detroit after

spending the week-end with Miss A. L. Tucker. Ray Hanson, of Detroit, spent the week-end at Wm. C. King's. Charlie Jeffery and wife and Mrs. J. L. Heatherington, of Windsor, were in town this week.

Harvest thanksgiving services were held in Christ church on Sunday at 11 a.m. and 7.30 p.m. Rev. P. H. Streeter, of Florence, conducted both, preaching most practical sermons. The choir rendered special devotional songs. The church was tastefully decorated with beautiful flowers, fruits and grain.

Ed. Woods was in Windsor last week representing the I. O. O. F. at Sovereign Lodge.

WOODGREEN

Mrs. T. Simpson and Florence visited friends at Florence last week. Miss Muriel Weekes spent Sunday with Miss Alice Harvey.

A large number attended the special rally day services on Sunday. Mr. Kelly, of Wharfedale Road Children's Shelter, gave a splendid talk on the work carried on there. A number of the girls of the junior classes helped with the singing.

Bobby Voce and Owen Morgan, of Detroit, spent a few days here. James Waterworth is visiting in Detroit.

CAMERON

The severe frost on Monday night froze the corn that was not cut. Neil Waterworth spent Sunday with friends at Sunnyside.

Mr. and Mrs. Baladon and little son motored from St. Thomas on Sunday and spent the day with Mr. and Mrs. Plaine.

The Misses Bowman are spending a few days with London friends.

SHIELDS SIDING

The Ferguson Crossing Needle Club met at the home of Mrs. Oscar Watson on Sept. 7. There were 14 members and 21 visitors present. The collection was \$5.10. The next meeting will be at Mrs. R. L. McAlpine's on Thursday, Oct. 5. A full attendance is requested as arrangements will be completed for the Hal-low-e'en concert and supper at No. 12. The roll call will be answered by a verse of Scripture beginning with the letter K.

STRATHBURN

The next regular meeting of the Battle Hill U. F. O. will be held at the home of Mrs. Clarence Nixon on Wednesday afternoon, Oct. 4.

Internal parasites in the shape of worms in the stomach and bowels of children sap their vitality and retard physical development. They keep the child in a constant state of unrest and, if not attended to, endanger life. The child can be spared much suffering and the mother much anxiety by using a reliable worm remedy, such as Miller's Worm Powders, which are sure death to worms.

SHOE REPAIRS WHILE YOU WAIT

Old Shoes made like new.

Quality, Durability, and Neatness in every job guaranteed.

Let me fix your broken Harness. Charges reasonable.

Agent for the City Laundry, St. Thomas

MELBOURNE

The following graduates of Melbourne continuation school are registered at the London Normal School: Annie Dillon, Annie Dewar, May Hardy, Ethel Mullins, Mildred Richards, Anna McGugan, Sadie Switzer and Gordon Thorncroft.

G. W. Bush, of Smith's Falls, has been appointed manager of the Union Bank here.

Mrs. (Rev.) M. M. Bennett, of Yorkton, Sask., a former Melbourne young lady, spent a short time with Melbourne friends. She has been president of the Saskatchewan branch of the W. M. S. for nine years and is their representative to the Women's Board of Missions which is being held in Toronto this week. Her many friends here will be pleased to know that her daughter, who has been a student at Victoria College, won a scholarship last year and a gold medal this year.

A few of the young people from Eddy's Mills circuit motored here on Saturday to visit Ernest Stevenson, a former pastor of that place, before his departure for Toronto.

Rev. Dr. and Mrs. A. J. Brown will be at home to their friends at the parsonage on Thursday, Oct. 5, from 3 to 6 o'clock.

A number from here attended the anniversary services at Riverside on Sunday. Rev. W. A. Leitch, of Kintyre, presided. Anniversary services will be held in the Presbyterian church here on October 1, when Rev. Capt. Macgillivray, of St. Thomas, will preach. Rev. Mr. Hopper, of Delaware, will preach anniversary sermons in the Methodist church on October 8.

Miss Gladys Phillips has been appointed pianist in the Methodist Sunday school, and Miss Clara Waters pianist in the Epworth League.

The Sunday school rally day service was observed on Sunday morning in the Methodist church, the superintendent presiding. Harold Parr spoke on religious education and Rev. Dr. Brown spoke on "Our Part in Extending the Kingdom." Special music was given.

Ernest Stevenson and Harold Parr left Monday to resume their studies at Victoria College.

The missionary conference district meeting which was held in Strathroy was well attended by Melbourne people. Rev. Dr. Brown, Mrs. Brown, Mrs. Lewis, Mrs. Parr and Harold Parr were the delegates from here and report a splendid convention.

Nearly all children are subject to worms and many are born with them. Spare them suffering by using Mother Graves' Worm Expeller, an excellent remedy.

CAIRO

Miss M. Decker and Miss A. Donavan, of Detroit, have returned home after a pleasant visit with Mr. and Mrs. Robert Huffman.

John Armstrong and wife were Chatham visitors on Sunday.

Mrs. Lella Smith and Frank Storie and family, of London, called on friends here on Sunday.

Mr. and Mrs. Robert Huffman attended the wedding of Reta Holton and Wayne Elliott on Wednesday.

John Vogt, wife and baby, of New York, are visiting the former's father. Anniversary services will be held in the Presbyterian church Oct. 1st.

DAVISVILLE

Mr. and Mrs. Roy Lumley and Mr. and Mrs. Clarence Waterworth and son, of Detroit, spent the week-end at the home of Mr. and Mrs. Thomas Durfee.

Jack Blackhall, of Detroit, is spending a few days at his home here.

Mr. and Mrs. Joseph Armstrong, Mrs. Wm. McRae and Mrs. Will Durfee spent the week-end in Detroit.

NORTH EKFRID

Mrs. Wm. Foster has returned home after a two weeks' visit in London, Lambeth and Komoka.

Mr. and Mrs. Sam Hardy and family visited at the home of Wm. Down, Jr.

Mrs. Henry Hardy, of Mount Brydges, spent Sunday at the home of Mrs. Sarah Hardy.

The funeral of Hiram Carman was held from his late home on Thursday, Sept. 21. Interment at Laugh-ton's cemetery.

Mrs. Frank Graham, of Woodstock, spent a few days in this vicinity.

George Pettit, of Caradoc, had the misfortune to run an silver in his hand, which caused blood-poisoning.

Mrs. Thomas Hardy's father, Burley James, of Komoka, passed away Saturday night, Sept. 23rd.

Mr. and Mrs. Ed. Cobbin, of Sarnia, are visiting relatives in this vicinity.

The eldest son of Bert Pierce had the misfortune to run a nail in his foot.

EKFRID STATION

Anniversary services will be held in S. S. No. 4 next Sunday afternoon at 2.30. Rev. Mr. Paton, of Glencoe, will have charge, assisted by John Strachan.

Mr. and Mrs. Clarence Eaton, who have been visiting friends and relatives here, returned to their home in Toledo last week.

THE PROBLEM

The average farmer finds it hard to figure out why wheat has slumped in price. The thing that bothers him most is that he cannot bring about a slump in the price of wheat he has to buy with his wheat money.—London Advertiser.

"Yes," said Mrs. Newlyrich, describing her friend's illness, "she was taken sick with pantomime poisoning, and four doctors came to the house and insisted about her. They diagrammed her case very closely and decided she had eaten some fish or something that had paragraphs in it so they gave her a hypothetical injunction of a serial that would destroy the bacteria, but it didn't do no good at all, and she was soon in a state of chromo."

PLUMBING ON THE FARM

Running Water Not a Luxury, But a Necessity.

Practical Hints on Home Installation—The Water Service Pipe—The Fixtures—Have a Good System of Drainage for Waste Water.

(Contributed by Ontario Department of Agriculture, Toronto.)

A plumbing system consists of three main parts: Water service, fixtures, and waste pipes.

The Water Service Pipes.

The duty of these pipes is to convey the water from the supply to the fixtures. They should be galvanized iron of first-class quality, and the size for the house is ½-inch, except the one that connects the hot water boiler to the kitchen range or furnace, which is ¾-inch in size. Pipe is bought by the foot in small quantities and by the 100 feet in large quantities, and the price for galvanized iron pipe at the present time is 10 cents per foot for the ½-inch, and 12 cents for the ¾-inch. The amount required for a house is about 120 feet, but it varies with the size of the house and the layout, particularly the location of the bathroom in relation to the kitchen, also whether soft water is on tap as well as hard water. Sections of pipe are joined together by threaded couplings, and red lead or a special paste is used on the threaded parts to make the joints tight and preserve the threads from rusting and becoming permanently set. The water in these pipes is usually under 30 to 50 pounds pressure, and all joints must be positively water-tight, particularly so if the pipes are laid under floors.

Test the Pipes for Leaks.

After they are installed and before they are covered up either under floors or in partitions, and before they are covered up for good, the water should be turned on under good pressure and a thorough test made for leaks, not only at the joints but all along the pipe line, as a small hole or split would cause a serious leak. Be sure the man operating the threading tool knows his job and does it properly. It is very essential that the water pipes be located safe from frost, and therefore it is highly advisable to keep them away from the outside wall of the house or stable, if possible. It is particularly imperative to keep the pipes connecting the hot water boiler to the kitchen range or furnace fire box from freezing, as a stoppage in this line would cause a blow-out upon the fire being started in the morning, and serious loss of life or property would likely occur, and lastly it is very poor economy to install anything less than the highest quality of galvanized pipe, never use wrought iron pipe for water, galvanized always.

Plumbing Fixtures.

These comprise the kitchen sink, laundry tubs, bathtub, lavatory sink, and closet. There is a considerable variety in the style and quality of these articles, and naturally a large range in prices. You should insist on a good quality of enamel coating on the fixtures, this is very important. The standard dimension of some of these fixtures are as follows:—Kitchen sink, 20 x 30 inches. Bath-tub, 4 ½ x 5 feet, \$65.00, or total of \$204.35. The cost of the sink, bathtub, water pipe and connections including labor for installing them and the fixtures is about \$195, making a total of about \$400.00.

A Drainage System. This part of the plumbing system consists of the soil pipe or stack that extends from the sewer up through the house and out beyond the roof. All the waste drain into this pipe and by it are carried to the sewage disposal system. Each fixture is connected to this main drain by a smaller pipe having a trap to keep bad odors from coming back from the sewer. The stack is 4-inch cast-iron pipe made in 5-foot sections, and the joints are caulked with oakum and lead. The other pipes are 2 inch and 1 ½ inch, either iron or lead.

Installing this part of this work, also the water service pipes, is commonly known as "roughing in." Space will not permit of further treatment of the subject.

Write the Department of Physics, O. A. C. Guelph, for advice, and for a copy of Bulletin 267, "Farm Water Supply and Sewage Disposal."—R. R. Graham, O. A. College, Guelph.

Few gardeners realize the importance of pulverizing the soil as deeply as it is ploughed. No matter how perfectly the surface is prepared, if the soil is coarse and lumpy below, the plants will not thrive. Large air spaces in the soil are a detriment, but a large number of very small air spaces in the soil are a benefit.

ABOUT ENSILAGE CORN

Choose Best Varieties For Live Stock Fodder.

Should Ripen at Least a Few Ears.—The Grain Is Nourishing—Frozen Corn Preferred to Immature—Harvesting Root Crops.

(Contributed by Ontario Department of Agriculture, Toronto.)

The highest grade of corn silage is made from those varieties of corn that produce a large proportion of grain in the total weight of crop. Large growing southern varieties of dent corn that give an immense green weight of fodder per acre will as a rule produce a very poor silage under Ontario conditions. Many dairymen prefer flint varieties and the smaller stalk varieties of early maturing dents for silage purposes. From such a rich sweet silage can be made. The weight per acre may not be nearly as great as with the late maturing large growing dents, but when the silages are compared on the digestible dry matter basis the smaller growing earlier maturing dents and flints have the advantage. Use Corn Ripening Some Ears.

The experience of the past has shown that only such varieties as will ripen at least a few ears should be used. In early years of silo experience in Ontario the practice was to grow big corn. Little attention was paid to the grain yield; much poor silage resulted from the twelve to fourteen-foot stalks that went into the silo without the very necessary two pound well glazed ear. Hard experience has demonstrated that there is more milk, beef or butterfat in a cubic foot of silage made from corn that would husk out one hundred bushels per acre, than from a corn crop that consists of big juicy stalks only.

The Best Varieties.

Golden Glow, Essex Kent, Wisconsin 7, Bailly, North Western Dent, Compton's Early, Longfellow, Salzer's North Dakota and King Philip are varieties well suited to Ontario conditions. These varieties will ripen in the southwestern counties of Ontario, and they will generally reach the roasting ear stage over the greater part of the dairy section of the Province. The greatest quantity of digestible dry matter is to be obtained from a corn crop when it has reached the condition to cut for husking, ripe enough to complete maturity in the shock. Another advantage in growing the earlier maturing varieties is that such corn can be ensiled early in September and the land prepared for autumn wheat, an important factor now that the European Corn Borer has become a menace to corn growing.

Frozen Corn Preferred to Immature. The freezing of corn after it has reached the denting or early glass stage does not materially injure it so far as silage making goes. It is always advisable to run the risk of frost, rather than ensile the corn in immature state.—L. Stevenson, Sec. Dept. of Agriculture, Toronto.

Harvesting Root Crops. Roots crop should be taken up before the weather becomes too wet and disagreeable in the fall in any quantity. It is slow work at any time and becomes much more so under cold damp conditions. Lift the roots with a digging fork and twist off the tops, putting them in piles and covering with the tops. If a large area is to be lifted, and one is expert with a sharp hoe, he can very quickly remove the tops, but they will not keep quite as well. The roots should be ploughed out, throwing them as much as possible on the dirt. Bits with sliced sides and bottom should be used for storage where possible, as this gives the roots a chance to sweat. If the storage room temperature is above 40 deg. F., cover them with sand. Carrots should not be deeper than two feet in a bin, others may be four feet. Where cellar storage is not available use pits. These should be three feet wide, two or three feet high and of any length. Run the pits north and south where possible and have them on well-drained ground. Put a layer of straw on the ground and cover first with straw six inches deep, then six inches of earth, and as the frost gets harder cover with fresh strawy manure. Have ventilators every 15 or 20 feet, as all roots sweat in storage. These may be filled with straw during cold periods.

All roots should be as free from dirt as possible when put in storage. It is often advisable to leave a few days in small piles so that at the second lifting any adhering will be moved.—A. H. MacLennan, O. A. College, Guelph.

Freeborn Heifers. Twin calves—both of the same sex—will breed with just as much certainty as though they were born singly. When twins are born male and female the female is known as a freeborn and is usually sterile. There have been cases where freeborns have conceived, but they are rare. Probably not over one out of 100 will breed. It is just as unusual for the bull of male and female twins not to breed.

A Good Whitewash. Slake one-half bushel of fresh lime with boiling water, covering the receptacle to keep in the steam. Strain the liquid through a fine sieve, and add seven pounds of fine salt, previously dissolved in warm water; three pounds of ground rice, boiled to a thin paste and stirred in; one pound of white glue, soaked first in cold water until swollen, then carefully melted over fire.

To this mixture add five gallons of hot water and let it stand covered for a few days before using.

Mortgage Sale

Under and by virtue of the powers contained in a certain mortgage, which will be produced at the time of sale, there will be offered for sale by Public Auction at Wilson's Hotel, in the Village of Wardsville, on THURSDAY, OCTOBER 19th, 1922, at 2.30 o'clock p.m., the following Real Estate, namely:

ALL AND SINGULAR those certain parcels of tracts north land premises situate, lying and being in the Village of Wardsville, in the County of Middlesex and Province of Ontario, containing by admeasurement two-fifths of an acre be the same more or less, being composed of village lots ninety and ninety-one west of Hagerty street and south of Henrietta street on which was formerly known as block D in Henry Ross Archer's survey of part of the said Village of Wardsville.

SECONDLY: In the Village of Wardsville and being composed of part of lot number seventeen and containing by admeasurement eight acres be the same more or less, more particularly described as follows, that is to say:—Commencing at a distance of two chains and twenty links from the Hagerty Road on the south side of John street; thence westerly along said limit thirteen chains more or less to the line between the easterly and westerly halves of lot number seventeen in the first range north of the Longwoods Road in the Township of Wardsville and Village of Wardsville; thence south along said limit eight chains more or less to the northerly limit of lands formerly owned by one Amos W. Thomas; thence easterly along said limit thirteen chains more or less to lot number eighty-nine in block D in Henry Ross Archer's survey west of the Hagerty Road in the Village of Wardsville; thence north parallel with the Hagerty Road eight chains more or less to the place of beginning.

AND THIRDLY: All and singular that certain parcel or tract of land situate, lying and being in the Village of Wardsville, in the Township of Wardsville, in the County of Middlesex, containing eleven acres, be the same more or less, and the parcel or tract of land hereby conveyed or intended so to be may be known and described as follows, that is to say:—Commencing at a point in the line between the easterly and westerly halves of lot number seventeen in the first range north of the Long-

woods Road in the Township of Wardsville, the northerly limit of the corporation of the said Village of Wardsville intersects the said line between the east and west halves of said lot number seventeen according to the map or plan of the said Village of Wardsville made by John O'Mara bearing date the fourteenth day of July, A. D. 1868, and duly registered in the registry office for the West Riding of the County of Middlesex; thence easterly along the said northerly limit of the said corporation of the said Village of Wardsville a distance of fifty-one rods more or less to the north-westerly angle of village lot number 194 west of Hagerty Road in the said Village of Wardsville; thence southerly in a line parallel with the said line between the easterly and westerly halves of said lot number seventeen a distance of thirty-four and one-half rods more or less to the place of commencement.

This property is situated in the Village of Wardsville. It contains twenty acres of good land all planted with choice apple and other fruit trees now coming into full bearing. It has on it a frame dwelling house, frame stable and other improvements.

Terms of Sale:—Fifteen per cent. of the purchase price to be paid down at the time of sale and the balance within three weeks thereafter.

For further particulars and conditions of sale apply to ELLIOTT & MOSES, Vendor's Solicitors, or Mary E. Walker, Administratrix of the Estate of Thomas O. Simpson, deceased. L. L. McTAGGART, Auctioneer. Dated at Glencoe, Ontario, this 19th day of September, 1922.

FARM FOR SALE

Lots 17 and 18, concession A, township of Aldborough, county of Elgin, 120 acres, on the Thames river, three miles from Wardsville. A splendid pasture farm. Good dwelling and barn. Formerly owned by Mr. Sam Haining. Must be sold to wind up an estate. Apply Fred H. Brisco, 161 King St., Chatham, Ont.; phone 397. (Office open evenings.)
