

Delicate Children

Rapidly growing children need a great deal of vitality. They grow fast, play hard and work too hard at school. Then the appetite becomes fitful, their nights are restless, and they soon become weak, delicate and sickly.

Symptoms: The child feels weak, tired all the time, easily fatigued, constant desire to sit down or lie down, sleep often disturbed and unrefreshing.

Treatment: We know that VINOL will correct these troubles and make for each child new vitality, sound flesh and muscle tissue, strong bone structure, and rich, pure, red blood. It will build them up, fill out hollow cheeks and make them strong, robust and rosy. If it fails to do this we will give back your money.

The reason VINOL is so far superior to all other tonics and cod liver oil preparations for children is because it contains in a concentrated form all of the strengthening and body-building elements of cod liver oil actually taken from fresh cods' livers, but without a drop of oil or grease, and it does not upset their weak, delicate stomachs, like old-fashioned cod liver oil or emulsions, but is easily assimilated and is so delicious that all children love it.

Testimonial

A noted woman endorses VINOL.

Mrs. Rose Hawthorne Lathrop, who has done so much good among the children of New York City, writes:

"Little children seem to delight in taking VINOL. In my work among the destitute sick, I give VINOL in many cases where it would be impossible to give cod liver oil in any other form, on account of the extreme weakness of the patient's stomach. I have known VINOL to restore appetite and infuse new life in many cases of sick women and children when everything else failed."
