## Oh my gosh, what the hell's happenin' here

The Bums staff held a meeting last Sunday in Room 26 of the SUB. Fourteen staffers were present and roll call was answered by a package of tea bags. Following the meeting the bodies were removed by the kind men of the SUB - Des Neil and Peter Galoska. The minutes ensue.

7:30:00 - Staffers enter and attempt to sit down without missing chairs. Mersereau successful. Celebrates his victory by putting his Palmer-McLellan special \$26.00 boots on the table.

10:05:00 - Orr pulls out her crocheting and works on a summer

10:05:15 - Emerson asks what part of her body she intends to cover with it and ends up with \$7.00 worth of yarn in his mouth. 10:05:24 - Wright dies on table

due to acute drunkeness. 11:57:08 - Simms cracks sick pun

about not voting. 11:57:10 - Carey moves that Simms be censure. No seconder due to unconcious state of the rest of the staffers. Mersereau indicates that Simms had "better god-dam well vote"

2:37:05 - Manzer (the Chief) 2:38 - Fox - "Some door knob

locked the filing cabinet.' Carey - "Is that the one with the lock and key?" Fox replies with a dirty look.

5:16 - Lewis, out of complete and utter ennui, pulls out her little kitten book and starts to read a bedtime story. Elgee sits and

5:37 - Mersereau reads a bedtime story called the Lost Freckle. Staffers are amused by the tale of a young man who leaves a monestary in China to search for

his long lost freckle. 6:15 - Simms contentedly plays with the hairs (both of them) on his left arm. Brewer watches with obvious delight.

8:27 - Ward delivers a proxy - 7 lbs. 14 ozs.

8:28 - mass confusion caused by Emerson and Ward trying to carry on an intelligent conversation. 9:54 - The candidates (Benjamin

and Gowan( enter. Three days later Manzer calls

the meeting to order. (form this point on time became irrelevant). 1975 A.D. - The chief reads notes about the nomination of candidates. On conclusion of the notes. Mersereau abstains, while Wright hums a tune about the lost freckle. For no apparent reason, Patriquen is censured and carried away by the men in little white coats. (Second year Bio majors) Simms opens mouth and is censured

1975 A.D. - Manzer announces staff party and adds that all staffers should attend even if they have been to a Bruns party before. Best wakes up and asks where is Benjamin : &?" After some. discussion a vote is taken and it is decided that Benjamin is not there after all.

1975 A.D. - Orr offers body to start a family so she can be a

grandmother Carey begins to pant madly and Mersereau says that he will help Carey but only if Orr covers her body with blueberries, maple syrup, and whipped cream. Wright slides off chair.

1975 A.D. - Benjamin arrives with a smiling Patriquen close behind. Elgee tells Benjamin to put the dog back outside.

1976 B.C. - Benjamin gives speech. Staffers all slide off chair and when Benjamin asks for

questions, Fox demands ash tray. 1924 A.C. - Gowan mutters his speech and collects rotten fruit afterward. Fox asks Gowan for a pen. Orr cracks up a second time and the phantom photog attacks Fox concerning an injury to his

1973 B.D. - Benjamin nervously smokes a strange looking cigarette. Upon finishing speech he has a funnier than usual look on his face. Gowan babbles about the good time he had at the party the

night before. Best remarks that "Darwood" had done the best combination polka-Turkeytrot-Irish jig-rhumba-bosanova-watusiballet that he had seen. Gowan attacks best with a stapler and attempts to staple Best's head to

2001 - Patriquen enters upon a discourse about Ethyl and Methyl the Hydrate sisters. When Gowan tries the first joke of the year the meeting adjourns due to mass

College Hill Scarlet Regurgitation exists only on the UNB campus. The doctor also stated that due to a new unexplained phenonema known as cable, the disease may soon be spreading to the greater Fredericton area. The bacterium seem to travel both thru wires and over the air.

Symptoms include ear aches and a nauseous feeling, followed by prolonged vomiting. The victim may lose his or her hearing intermittantly thruout all stages of the disease. These temporary hearing losses are referred to as Dead Air.

"Strangley enough," said Fok-

king, "the disease strikes only during the academic term, and then only between the hours of 7:00 a.m. and 1:00 a.m."

Once contracted, the only apparent cure for the disease seems to be total isolation from any artificial noise.

Fokking said that now that the bacterium has been synthesized and it's structure defined, com-Continued on page 3
