SUBMISSIONS

Mike Bennett
Candidate for Senate

The University Senate is responsible for academic policy and procedures. Since there are only 6 Fredericton students on Senate out of a total membership of 62, it is essential that student senators be more concerned with pleasing students than pleasing administrators.

In the last year, I introduced more motions in Senate than any other student senator. I seek re-election to push for particular reforms:

1. Employment of Students: The University employs students as markers, laboratory demonstrators, and academic assistants. Job openings should be better advertised. Successful applicants should be given written job descriptions and terms of employment. Ideally, there should be a collective agreement between the University and its graduate and undergraduate student employees, as was done at the University of British Columbia.

2. Course and Teacher Survey: The University's current 9 question survey is trite. Yet, the Senate has continually refused to change it. As Vice President (Academic) of the Student Union, I have planned for a student-run survey. The results will be published and distributed in the fall. This student initiative will cause the Senate to reconsider its position.

3. Academic Interest Lectures: As Chairman of the Student Union Academic Commission, I have organized guest lectures at UNB featuring notable public figures like Dr. Henry Morgentaler and Abbie Hoffman. The University's Lecture Committee should work with the Student Union in bringing "big names" to campus.

Paul Higgins
Candidate for Arts Rep

I am up for re-election as Arts Representative. Representative powers are limited, but council representatives can act together to protect student interests. Representatives will protect these interests from the SRC executive or any outside force. The executive is doing its job, but in decisions where student input and opinion is necessary, the executive is farther removed from the common student than the average representative.

I have tried to keep close contact with the Arts constituency. The communication lines were open to the clubs though few of these clubs took advantage of them. If I should be re-elected, I would hope that the clubs and individual students would make use of the representation available to them. Participate in the election, be a concerned voter and vote in your best interest.

Tony Tracy
Candidate for Business Administration Rep

The Business Administration faculty needs a strong voice in the Student Union. As the Business faculty representative, I will effectively present the ideas of Business students.

I am already a member of the Student Union Finance Commission and take an active interest in the affairs of the Student Union, having attended every single Council meeting this year.

The visible separation between the general student body and the Student Union Council is unacceptable. I will ensure that every student has a say in the way OUR Student Union is run. I

support regular constituency meetings which give Business students the opportunity to express their ideas and concerns. I will also ensure that every student has the right to speak in council and attend any meeting of a Student Union funded organization. It is your right to see where your student fees are being spent, and how organizations are using YOUR money.

After years of infighting and backstabbing in Student government, it's time for hard work and cooperation. We've had enough of the old political hacks and people running on personal vendetta's to "get someone". Let's turn a new leaf...Together.

Tony Tracy

The Senate Board plays an important role in discerning what is in the best interest of the University. I hold that "what is good for the student body is good for the University". As a student senator it is the task of that person acting in the best interest of all to ensure that Senate is made aware of and as much as possible that Senate respond favorably to the needs of the student population.

As a student senator I would see to it that the the proposal for a minor in Women's Studies be favorably represented. Another proposal to be put forward in Senate which I feel deserves positive support is the creation of an Education degree for adult education.

Armand Vaillancourt

Fellow Students:

My name is Terry Young and I am running for one of the three positions of Student Senator in the upcoming Student Union elections. I am in my third year of Computer Science.

For the past 2 years, I have been involved in the residence system as Treasurer and President of MacKenzie House and by serving on a number of other committees in the residence system.

Also, I have been one of the Computer Science representatives on the SRC for the past 5 months.

I feel that my experience in these capacities and my willingness to work at the job makes me a good choice for Student Senator.

Sincerely,
Terry Young
