HALIFAX, N. S., DECEMBER 1, 1944

Apparently Art's father reads the March of Grime quite avidly. He saw that his son was going out with a "svelte smoothie" so he looked up "svelte" in the dictionary and after he found out what it meant he insisted on meeting her, after which he was very much impressed and went down town and bought a new dictionary.

A bachelor is a man who has been very successful in his love affairs.

Short notes on current flings . . Nancy Wilson and Bobby MacDonald seem to be hitting it off pretty well, Don and Zelda are wandering around of a map unearthed from Lester's in a daze about each other, Wilmot and Zoology led to Gorham and the Com Dance, Ken has been helping Irene with her Pharmacy exams duron a Nancy at the Hall and Ruth is planning to write a book of bedtime his way up the misty stairs. stories with the help of her erstwhile Engineer.

"Call Me Stu" has given up commalade Hovelites.

Better watch out for Meek Man girls, he's the new flamboyant Loif I ask your indulgence and permis sion to kiss you goodnight". Boy oh boy, what an irrestible line!

Take a look at the masthead of the Cazoot and see if you can guess which member of the staff was seen a short time ago at Norman's at five in the morning kissing all the girls a cheery good morning. And which staff writer of the Gazoot has had the mixed pleasure of having a beautiful C.W.A.C. from Newfoundland, fall in love with him but could not take advantage of the situation becase of previous commitments.

KNOWSEY feels sorry for the unjustified attack on Scoffman made in the last issue by McLeek. We can't understand why some people continue to accuse Scoffman of perpetrating the crime of being KNOWSEY, because believe it or not, Ripley, Scoffman is not. Even McGosh doesn't know who KNOWSEY is and Rangoon Rufus won't tell.

Two of the Law boys went to a show last Saturday night and decided to come out of their shell with a bang when they discovered that two amourous, ahem . . . girls were sitting behind them and apparently very anxious to make their acquainlived happily ever afterwards.

THE CALM BEFORE THE STORM

An intimate glimpse of pre-examination industry caught in the camera's eye by our Gazette photographer, serves as a reminder of the fatal day but one week hence.

Our wistful reporter, seeking solace for his C-in English 2, wandered into the gymnasium, into Roy's, into the men's common room and even into the drafting room but not a sympathetic face could he find. Where were they? his companions of the Freshman show and the Acadia trip. He stood deserted on the windswept campus; then an ectoplasmic presence—perhaps Rufus Rayne-whispered in his ear, "The Library".

Hastily grabbing an errant photographer, the reporter, with the aid Archives, and the prize-winning Geo- To Re-Arrange Postlogical survey of Studley striaeschistosity (the product of one Elder Xmas Parade Hours Bank) passed beneath the forbidden ing the last seven or eight nights at portals. U.A.T.C. Will Attempt

This week, in an interview with Squadron Leader Theakston, of the U.A.T.C., the Gazette learned that despite various difficulties, the U.A. T.C. is doing all that is possible to co-ordinate its training hours to those of the other services. Several importunities have arisen to deter such co-ordination, among these the night school classes which are held Thursday night in the draftingroom, where U.A.T.C. classes would be held. Also the fact that all instructors from Eastern Air Command are on a voluntary basis, and if these instructors do not agree to a change in hours, no change is pos-

Students' Council Authorizes The Building Of Recreation Room in Lower Gymnasium

Construction To Start During Vacation

The Dalhousie Student Council has authorized a provision for a common room in the gymnasium. What many of us have of the Council meeting included the been hoping for ever since we entered Dal is definitely going following: to become a reality over the Xmas vacation. Plans for said common room were layed before the Council Sunday afternoon sentative to the C.U.P. National by Art Hartling, President of the Glee Club. The room is to Conference to be held over the be the old band room in the Gym, which will change its tenants holidays was discussed, but defrom old broken instrsuments to ??? Dalhousie students.

At present the room is much too◆ small and so the partition will have to be moved back to the boys' lockers. The contractor has already been approached on the subject, but we wonder why he smiled when assured that some of the students would help him. A committee, made up of Art Hartling, Carl Dexter and Harry Zappier was appointed to make financial arrangements with the university.

A common "common room" will certainly answer to the need of a place for girls and boys to get together, and will provide a much more homey atmosphere than the Gym Store Roy will be relieved of his "beloved" juke-box, and students will have dancing as well as listening enjoyment for their nickels. We hope to have a piano where Billy and his gang will grow bigger and better than eyer before.

Plans for decorations are still quite indefinite, but suggestions are being considered for semi-cabaret style with tables and chairs around the room, a small bandstand and coke bar. It'll be the ideal place to drop in on Saturday night after an early movie and we're sure that all Barbara Campbell Is students will take advantage of the

In case any of the boys are worrying about their privacy in the locker room being infringed upon there is a separate entrance on the south side of the building.

Dal Debaters Drop **Close Decision To** Mount Allison

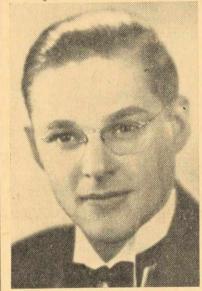

In the first intercollegiate debate of the year, Mt. A. girls' team defeated Dalhousie in a close two-tone decision.

Dalhousie supported the affirmaive of the resolution "that in the nterests of economic and political stability, Canada should join the Pan-American Union," Mt. A. arguing the negative side of the resolution. The speakers for Dal were Pat Ryan, captain, and Elizabeth

The chairman of the debate was R. J. McCleave, who introduced the speakers and judges, His Worship Mayor J. E. Lloyd, Rev. J. A. Mac-

Keigan and Judge Elliott Hudson. The judges all expressed their Following a business meeting on difficulty in reaching the decision, Saturday afternoon a banquet was which was in favor of the Mt. A. held at the Windsor Hotel. Dr. J. team. Judge Hudson complimented C. Meakins, Dean of the Faculty of Dal's manager, Terry Monaghan, Medicine, McGill University, was the for the capable way in which she guest speaker. Dr. Meakins, who handled all arrangements for the has but recently retired from the debate. In their comments the office of Deputy Director General of judges remarked that the standard story short, the sequel of it all was sions were smoothly conducted and Medical Services, R.C.A.M.C., gave was on a much higher scale than an interesting talk on post-war re- many previous college debates. Among the topics discussed were: of all delegates that Dalhousie had made no mistake in affiliating with nation-wide organization representing the interests of students and internes throughout the Dominion."

DALHOUSIE INSTITUTE OF PUBLIC OPINION

Are you in favor of the movement by Dalhousie girls, reported in last week's Gazette, to ban Dalhousie boys from affairs held by the girls: Sadies Hawkins, etc.?

The boys of Dalhousie have scored another social victory and 85% of the girls questioned favored the males of the campus to all others. The greatest objection to "the pimple parade" was voiced by the seniors who screamed "they're too young." One of the girls suggested that we light a fire under a freshman to see if he'd move.

So the girls of Dalhousie have put their faith for future dates in the hands of the men of tomorrow, but from the result of this poll we can expect to see 15% of the men at Sadie Hawkins wearing navy blue.

Do you approve of a longer College year?

This question was received by the students from a strictly mercenary angle and 70% wanted as short a college year as possible, so they could engage in the terrific business of being gainfully employed. 25% of the students thought a longer college year would be better because of the extra time which could be devoted to extra-curricular activities.

A longer first term was approved by many, but some of the students (probably engineers) thought if the college year was longer they might have more work to do, so they were definitely against any such move. The remaining 5% were undecided.
