COMBINATION  
ELECTRIC AND ACETYLENE

The illustration above shows the Victor Model 2-1 Mazda-Nitrogen Lamp and High-Power Acetylene Lamp equipment, with Prest-O-Lite tank, Lantern carrying case and screen. Price of combination Lantern, only \$61.25 ; Tank, \$12 ; Carrying Case, \$10.75 ; Screen, 12 x 12, \$12.

This is the 400-watt Mazda-Nitrogen Lamp used in above model and is the very latest development in projection lamps. The illumination produced is intensely powerful. It gives a steady, white, noiseless, flickerless light.
