

An Indestructible Concrete Fence Post

That WILL NOT ROT—RUST—BURN or HEAVE

Guaranteed for 100 years. Easily made and strong. Cost you about the same as cedar posts.

Our **ANGLE STEEL REINFORCEMENT** gives a post "Backbone Solidity." Without it Concrete Posts are unreliable. With one of our moulds you can make two hundred (200) posts per day. Posts are turned out in ordinary hardware or butcher's paper, which permits you to use concrete sloppy (which sets much stronger) and can be turned out the moment it has been made; the paper retains the moisture. Your posts do not require to be wet down.

One yard of sharp sand or fine gravel and 1 1/2 barrels of cement will make 50 posts of standard length.

Write for our free illustrated booklet telling you all about it. Do not buy another post until you have investigated this.
