

Which Telephone?

There are several thousand farmers scattered throughout Canada who have decided to establish a telephone connection with their neighbors and the outside world—to get in close touch with their commission agents, the doctor and the veterinarian. To ensure their complete satisfaction, their installation MUST measure up to the efficiency of

Stromberg-Carlson Telephones

inferior apparatus is not worth installation—argument that does not reproduce the message. Stromberg-Carlson Telephones, throughout North America, City, Factory and Farm, are daily serving farmers.

Notwithstanding the moderate cost the Stromberg-Carlson apparatus will cost for the same job. If you need a few more members in your community to establish a local company, advise us and we will gladly assist you.

Distinction Attained.

(Continued from page 1937)

popular tide of western wheat growing in favor of mixed husbandry. The world has been ransacked for improved strains of fruits and grains, and what is still more important, as a result of years of patient and original culture, such outstanding achievements are on record as the production of the early maturing and prolific marquis wheat of high-milling quality which has brought fame to the country and added to the more certain compensation of the Western grain grower. Most gratifying and important benefits to the West are also confidently expected to accrue in the near future from the dissemination of hardy fruit like the Wapella apple, a remarkable cross-bred seedling from Russian stock. In concluding these necessarily brief references to the labors of Dr. Saunders, which continued so long concurrently with the publication of THE FARMER'S ADVOCATE, a word must be added in recognition of the conscientious seriousness with which he invested all his duties, of the scrupulous personal oversight which he would give even to the make-up of a package of trial seed, for some lone man in the far-off Yukon and of the unfailing courtesy he main-

SECOND ANNUAL CONSIGNMENT SALE

OF 50 HEAD OF PURE-BRED

Ayrshire Cattle

From the herds of the Southern Counties Ayrshire Breeders' Club. To be held at the Imperial Hotel Stables, Tillsonburg, Ont., on

Thursday, December 30th, 1915, at 1 p.m.

The offering consists of females of all ages, including a number of fresh milch cows that have either qualified or are now running in the R. O. P. test. A number of extra choice young bulls fit for service are also included. The breeding of the cattle in this consignment is of the very choicest. Note specially the breeding of the reference sires in the catalogue. The Club constitution absolutely prohibits all by-bidding or bidding in, so that everyone is assured of a fair and square deal.

TERMS: Cash or credit up to 6 months on bankable paper with interest at 6 per cent.

SUNNY SIDE HEREFORDS

If you want a good one to head your herd, get you high-priced feeders, or some females, inspect our herd before buying. Satisfaction guaranteed.
O'NEIL BROS. Denfield, Ont. R. No. 2.

FREE We will give absolutely free to any farmer, stock or poultry raiser one of our new 80-page booklets, which tells how to balance rations for feeding stock, milch cows, horses, etc. This also deals with the common diseases in poultry, the symptoms, treatments, etc. Tells how to build poultry houses; how to avoid all kinds of diseases in both stock and poultry; tells how to raise calves without milk, and describes fully the high-class stock and poultry remedies and foods we manufacture.

Last year our horses were troubled greatly with coughs and I used 26 tins of your Cough Specific with excellent results."

It will increase the flow of milk from 3 to 5 pounds during the winter. It will help fatten steers a month earlier, thereby saving a month's feed and labor. You can raise and fatten pigs and market them a month earlier, saving a month's feed and labor. Malcolm Gray of Komoka, Ont., says: "In regard to the feeding of Royal Purple, I had two lots of hogs. To the first lot I fed Royal Purple Stock Specific and sold them when 6 months old and they averaged 196 pounds each. On the second lot I did not use Royal Purple Stock Specific and at the same age they averaged only 150 pounds. They were both the same breed and one lot had as good a chance as the other. We have also fed Royal Purple Poultry Specific with excellent results."

Norman C. Charlton, Scott, Sask., says: "I am from Ontario and fed your Royal Purple Stock Specific when in Brownsville. My cows made the largest average and tested 5 pounds over average at C. M. P. at Brownsville. I believe you make the best conditioner on the Market."

Put up in 50c. packages; \$1.50 tins that hold as much as four 50c. packages, and \$5.00 tins which hold four times as much as the \$1.50 tins. A 50c. package will last an animal 70 days. A \$5.00 tin will last 10 animals nearly three months. The cost to use this condition powder is so small that no farmer can afford to be without it, as it will average less than 1/2c. a day if purchased in large tins.

Royal Purple Cough Cure

It will cure any ordinary cough in four days and break up and cure distemper in 10 days. The large quantities of musty grains and fodder harvested this year will start more horses coughing than in any year for a decade past. John Cartier, Bothwell, Ont., says: "I have used one tin of Royal Purple Cough Specific and found it excellent for distemper. One of my father's horses had distemper last fall and inside of two weeks the distemper was entirely cured by using your Royal Purple Cough Specific. I am recommending it to my neighbors."

Put up in 50c. tins; 60c. by mail.

Barrie, April 28th.

"The W. A. Jenkins Mfg. Co., London, Ont.: Dear Sirs,—In response to your request as to our opinion of 'Royal Purple' brands, beg to say that in two years, or rather two seasons (winter), we have sold it, we have found it the best and most satisfactory stock and poultry specific we have ever handled. We have had many testimonials from customers as to its good qualities. One lady customer told us that she used 'Royal Purple' in feeding her turkeys, and the result was that she got the highest price paid on our market for them. The buyer stated they were the best turkeys he had seen."

Respectfully yours, H. H. OTTON & SON.

Royal Purple Roup Specific

Is a most excellent remedy and every poultryman should use it in the drinking water during fall, winter and spring months. Read over what Messrs. McConnell & Fergusson have to say about it.

"Gentlemen,—Enclosed you will find a photograph of one of our 'Dul-Mage' White Rocks. Isn't he a big-boned vigorous specimen? About three years ago we had a hen nearly dead with the roup, and after trying a number of remedies, sought the advice of Mr. Wm. McNeill, the well-known poultry judge, and he advised us to kill her at once, as it was impossible to save her life. She was not a valuable hen, and we thought it better to experiment further, as we might have a more valuable bird to treat later on. We got a package of your Roup Cure, and it relieved her at once. At the end of a week's time she was completely cured. We have put a little of your Roup Cure in the water from time to time, and have only had one case of roup in our immense flock in the last three years."

(The bird shown in this advertisement is reproduced from McConnell & Fergusson's photo.)

Put up in 25c. tins; 30c. by mail.

tained amid the thousand-and-one calls and perplexities of his busy life.

R. Honey & Sons, Dartford, Ont., when ordering a change in their advertisement, wrote THE FARMER'S ADVOCATE that the demand for Cotswold sheep has been extra good this fall. They could have sold many more if they had had them to spare. One of their two-year-old Holstein heifers with her first calf has just finished her R.O.P. test with over 15,000 lbs. milk in one year. Hugh Brannen, Hawkesbury, Ont., purchased a bull from these breeders four years ago and has just ordered another, whose two nearest dams averaged 14,261 lbs. milk in one year. Messrs. Honey & Sons are now offering another young bull which, considering its breeding, is one of the best they have offered in a long time. He is nicely marked and weighed 500 lbs. at six months of age. This calf's sire is from a four-year-old cow that gave 19,375 lbs. milk in one year, and he has ten two-year-old R.O.P. sisters that averaged 11,546 lbs. milk and 499 lbs. butter in one year. Full particulars regarding the bull will be forwarded upon application. They also have females of all ages of similar breeding for sale. Also Yorkshire swine of both sexes.

Royal Purple Calf Meal

You can raise calves on this meal without using milk. It is without doubt the highest grade calf meal on the Canadian market. This year we gave two \$25.00 prizes at the Western Fair, London, Ont., for the two best calves raised entirely on our calf meal. Read what Mr. Lipsit, who won these prizes, has to say about this meal. Mr. Lipsit is probably one of the best-known Holstein cattle men in Canada.

"Stratfordville, Ont., Sept. 28, 1915.

"The W. A. Jenkins Mfg. Co., London, Ont.: Dear Sirs,—Replying to your letter of Sept. 18th, my bull's name is Fenderine King May Fayne. I am having printed now an extended pedigree of him, which I will be pleased to forward you, along with his photograph, as soon as completed."

"The calves I won your two special prizes on were Forest Ridge Fayne Elite and Forest Ridge Fayne Calamity 2nd. They were both fed regularly on your calf meal, as well as the calf that won first at the Canadian National Exhibition, Toronto, this year in a class of 33. I also won first and your special prize at the Stratfordville Fair here on another calf."

"The above I believe to be recommend enough for one breeder, as I have used several different calf meals, and have not found any quite so satisfactory."

"Yours truly, L. H. LIPSIT."

\$4.00 a cwt. F.O.B. London, Ont.

Peace River Crossing, Alta., Oct. 4, 1915.

"The W. A. Jenkins Mfg. Co., London, Ont.: Dear Sirs,—I used your Roup Cure last spring and can safely say that it saved my flock. Previous to my getting the remedy I had lost 37 hens, and after I began using it I only lost three and the entire flock were affected. Many people here have small chicks and they all complain of the roup condition of their fowl. There seems to be something in the climate or soil that caused the disease."

"Yours very truly, J. W. MARR."

We also manufacture:

Royal Purple Sweat Liniment—8-oz. bottles, 50c.; by mail, 60c.

Royal Purple Gall Cure.—25c. and 50c. packages, 30c. and 60c. by mail.

Royal Purple Disinfectant—25c., 50c. and \$1.

Royal Purple Worm Powder—25c. tins; 30c. by mail.

Royal Purple Lice Killer—25c. and 50c. tins; 30c. and 60c. by mail.

Royal Purple Linseed Meal.

Royal Purple Chick Feed—25c. packages, 100-lb. bags.

We sell only to the trade, but if you cannot get these goods from a merchant in your town, we will send any 25c. tin by mail for 30c. and any 50c. package for 60c. Larger packages will be forwarded by express or freight.

Made in Canada by Canadian capital and labor.

THE W. A. JENKINS MFG. CO., LONDON, ONT.

Royal Purple Poultry Specific

Works entirely on the digestive organs of the poultry. When a bird's gizzard is working properly, it will be healthy, and when healthy will lay just as many eggs in winter as in summer. You can fatten turkeys and other fowl in just one-half the time on the same food when they digest their food properly. Royal Purple Poultry Specific should be used in the food once a day through the fall, winter and spring seasons. The cost to use it is so small that it will pay for itself 10 times over in actual results.

No poultryman can afford to be without this excellent tonic. It is a hen's business to lay. It is our business to make her lay. Put up in 25c. and 50c. packages, \$1.50 and \$5.00 tins. A 50c. package will last 25 hens 70 days. A \$5.00 tin will last 200 hens for over four months.
