"THE OSBORNE" LOCK-STITCH

Family Sewing and Light Manufacturing Machine

Is the result of a great deal of inventive ingenuity and experiments.
None but the best and simplest combinations of mechanism are em-
ployed in its construction. It is built on the "cam" principle, ex-
perience proving it to be a thoroughly reliable one. Such useless
complications as Springs, Cranks, Cog-Wheels and Bolts are dis-
pensed with. From the enormous outlay required for machinery
and tools in the production of machines on this principle, but few
parties have yet attempted it. Having surmounted the difficulty,
however, we are enabled to give positive and perfect motions with
one-half less machinery than contained in machines using intricate
"head-gear" and "heart motions," and present it to purchasers as a
first-class article, believing it to be the BEST FAMILY AND LIGHT
MANUFACTURING SEWING MACHINE NOW IN USE. It is simple,
compact, strong, beautiful and durable. It is capable of a range
and variety of work such as was thought impossible long ago to perform
by machinery. It is the best made, best adjusted, easiest operated,
cheapest and most beautiful in model, quiet, and rapid in its move-
ments, of any family Machine in the market.

Front, 527 feet; Depth, 219 feet.

Hitherto the facilities of the Wheeler & Wilson Manufacturing Co., great as
they were, have been inadequate to supply the unprecedented demand of this favorite
machine. Recent extensive additions to the Company's manufacturing resources,
however enable them now, not only to supply the demand of the world, but at a
much cheaper rate. The public in Canada will now reap the benefit of these
changes, and it is expected the present large reduction will not only increase the
sale still more extensively, but enable the very poorer classes to procure them, and
by our system of easy monthly payments, every family in the land may become
the possessors of a machine celebrated the world over for its sterling worth and
great durability.
