## NEW OIL FIELDS OF ONTARIO.

Our Mr. Fox has just returned from a trip of personal investigation of the **Wonderful Oil Gusher Field** in the Township of Raleigh, in the County of Kent. His report is—that the whole country is literally

### ON FIRE WITH EXCITEMENT.

Chatham—respectable, easy-going old Chatham—stands amazed, while oil operators from Pennsylvania, Ohio, Texas, California and from the big refineries at Petrolea and Sarnia fill her hotels and streets to overflowing—all seeking **Oil, Oil, Oil**—offering figures that would have been considered sheer madness a few weeks ago. The roads to the oil fields are lined with all kinds of carriages, waggon and loads of machinery and derricks. Several drilling rigs are already partly erected, and contracts have been made for the sinking of at least **FIFTY** wells within the next thirty days.

LANDS have quadrupled in price within the last two weeks. Outside of the Gurd & Co. Syndicate—

were the first on the ground, and have the largest holdings—amounting to about **One Thousand Acres, right in the Big Gusher Field in Raleigh.**

While at the scene of operations our Mr. Fox closed negotiations with the representative of two of the largest oil refineries in Canada to sink a number of wells **IMMEDIATELY**, and at least **FIVE WELLS** must be completed within **Sixty Days.**

At **NORTHWOOD**, about ten miles from Chatham, our eighteenth well is down about three hundred feet. Here the Company is operating on about **Sixteen Hundred Acres** of great promise. Every well sunk so far has been a paying oil producer. Watch this field also very closely—but advertising space is limited. Send for O. & C. Oil Co.'s Report for November and see for yourself. The volume of enquiries to this office show that our people are becoming alive to the great possibilities lying right at our own doors.

The stock is going rapidly and at any time may be withdrawn.

Will you learn this little lesson from the climbers?"

The children said they would, and they honestly tried, after that, the vines by the latticed porch helping to keep them in mind. But there were only four children there. Many times four would be the better for the lesson too. There are almost always some younger children where there are older ones—either at home or at school. Who will let the little ones climb up beside them in work and play? Will you?

#### FORGETTING TO THANK MOTHER.

Of course, you boys and girls are not the kind who forget to say, "Thank you," when anyone does you a favor. When you were very small, before you could so much as talk plainly, father and mother taught you these two little words, and ever since you have been careful about using them at the right time.

There are a good many people who are careful to say, "Thank you," when somebody passes them the bread at dinner or lends them a book to read, but who receive other and great kindnesses without saying a word.

"Where are my gloves?" cries Jack, as he is about to start for school some cold morning. Oh, dear! I wish folks would let my gloves alone."

"Here they are, Jack," mamma says quickly, as the sound of the impatient voice comes to her ears. "I put them away for you when you left them lying about."

And perhaps Jack says, "Oh!" and perhaps he says nothing at all. It is not likely that he says, "Thank you." We fear his mother is used to it, however. Most mothers are.

How many boys and girls think of saying, "I thank you," for the hours mother spends mending their torn clothes, for her care of them when they are sick, or for any of the little sacrifices she is making all the time. If they want any help on their lessons mother gives it as a matter of course, and they usually forget that it is anything for which to thank her. They take it for granted that whatever they want mother will give them, if she possibly can. And so she will, but her willingness and her love and her unselfishness are no excuse for their being ungrateful and discourteous.

Start this very day to say, "Thank you," whenever mother does you a kindness. Perhaps you will be surprised to learn how many chances there are in a day to use those little

words. And you will be even more surprised to see how much it means to mother that you do not forget them.
