unless the negatives are altogether unprintable. Over-exposure in snow pictures as well as under-development through low temperature of developer are now producing many difficult printers, but "Contrast" will enable you to make satisfactory prints from all but the impossible prints.

## Housekeeping Is Not the Task It Used to Be

MODERN invention has done away with much of the hard work. For instance, the cleaning and polishing of hardwood floors, the dusting of moldings, the tops of high furniture, the stairs, under the radiator, etc. These back-breaking tasks are now made easy with the

# O-Cedar Mop Polish Mop

With it you can dust, clean and polish a hardwood floor in the time it formerly took you to get ready to do it.

Besides, you do not have to get down on your hands and knees to dust under the bed or other hard-to-get-at places, or to stand on a chair to dust the top of the high furniture. All of the hard work is now made easy with the O-Cedar Polish Mop. It gathers all the dust or dirt from everywhere and holds it. The mop is easily cleaned by washing and then renewed by pouring on a few drops of O-Cedar Polish.

Try it two whole days with this understanding: If you do not find it satisfactory in every respect we will return your money. The price is only \$1.50 and it will save its price many times over in a short time.

## LIVE STOCK MARKETS TORONTO.

Receipts of live stock at the Union Stock Yards on Monday consisted of 75 cars—1220 cattle, 185 calves, 1270 hogs, and 104 sheep and lambs.

Butcher cattle—For a Monday market the run was small, only 1220 cattle of all grades being on sale.

Good to heavy choice steers and good to choice butcher steers and heifers were strong and 25c higher than last week's close.

Common butcher cattle were slow of sale, but prices held steady at last Thursday's close. The bulk of those cattle should have been left at home and fed for a couple of months, as there are far too many of them coming on the market.

Cows and bulls were firm, choice bulls selling at from \$9 25 to \$9 75, with a couple of extra choice at slightly higher prices.

Choice cows sold at from \$8 50 to \$9, and good cows at \$7 50 to \$8.

Milkers, springers, stockers and feeders were all steady at last week's closing prices.

The sheep and lamb market was without change. There were only 104, all sold, on sale, choice lambs selling at 14c to 15c lb, and light, handy sheep at 10c to 10½c lb.

Veal calves were 50c to 60c lower in price, while grass calves were steady.

Hogs—As usual on Monday, hogs went to packers at last week's quotations, but are quoted for the balance of the week at \$13 25 f.o.b., \$13 75 fed and watered, and \$14 weighed off cars.

### Knew by Intuition.

The kindergarten had been studying the wind all week—its power, effects, etc.—until the subject had been pretty well exhausted. To stimulate interest the kindergarten said, in her most enthusiastic manner: "Children, as I came to school to-day in a trolley car, the door opened and something came softly in and kissed me on the cheek. What do you think it was?"

And the children joyfully answered, "The conductor!"

If there was not a sucker born every minute the other half of the world would starve to death.

Charles M. Schwab says that many persons would be surprised to learn that the Bethlehem steel plant is the largest ordnance factory in the world, exceeding by 60% the capacity of the great Krupp works in Germany. The plant now has 70,000 employees and its payroll averages \$8,000,000 a month.

The Women's Institutes of Ontario passed a resolution at their recent convention to petition the Legislature to prohibit the sale and manufacture of ice cream as a luxury, until the scarcity of milk is over and prices are normal. They also intend to ask for better sanitary arrangements at stations, on trains and in churches and Sunday schools of rural districts.

The cantilever bridge at Niagara Falls owned by the Michigan Central Railway is to be rebuilt and work has already started. W. T. Tuttle, an engineer from New York, has arrived to take charge of the work. It will take eight months to build the new bridge, it is estimated, and in the meantime the present bridge will be used. It was opened in 1883.

A New York man took a run not long ago into Connecticut, to a town where he had lived as a boy. On his native heath he accosted a venerable old chap of some eighty years, who proved to be the very person the Gothamite sought to answer certain inquiries concerning the place. As the conversation proceeded the New Yorker said "I suppose you have, always lived around here?" "No," said the old man. "I was born 'wo good miles from here."
