### PROGRESS OF THE WAR

[June 29 to July 5]

Thursday, 8th July, 1915.

THE close of the week under review ushered in the twelfth month of active hostilities in the present war. The week witnessed fierce fighting at many points in the enormously extended battlefront; and while the results were momentous, and will have an important effect on future operations, nothing of a really decisive nature transpired. Great activity prevailed in the western

theatre from the sea to Alsace, and the theatre from the sea to Alsace, and the net result would appear to be to the advantage of the Germans, though the appointed by Parliament and to field office until removed by a joint vote of both conversity reports are at variance or are quite several reports are at variance or are quite

In the eastern battlegrounds the Russians seem to have made a stand at the extremities of their front, but to have retired somewhat more in the centre, to the west of Warsaw. The capital of Poland seems to be in no immediate danger from the incursions of the "shameless Huns," though civilians are reported to be leaving the city in large numbers. It is fully expected by military experts that the Russians will soon recover their ability to withstand the drive of the Teutons, and to resume the offensive themselves. Russia is handicapped for the time by an in- Brunswick Pharmaceutical Society, held itions, and always by the lack of railways \$500 was passed towards patriotic purand other aids to mobility; but time is on poses as follows: \$200 for the New Brunsher side, and the spirit of her people is un- wick Red Cross; \$200 for the Patriotic quenched and determined upon ultimate Fund; and \$100 towards the endowmen

However, the close of the week saw the Allies in a much stronger position than at the beginning.

In the fighting along the Austro-Italian frontier the Italians made substantial gains at several points, especially in Austrian territory on the Isonzo River. Rethe Italians have had the advantage seems | Staples and C. Fred. Chestnut, Fredericton to be beyond dispute.

The German submarine "blockade" was especially active during the week, several large vessels being included among the victims. On Monday Mayor Greenlaw, accompanied by Marshal Rigby and a number of citizens, went to Indian Point gratuitously supplied, they made a most effective beginning of cleaning up the Park, which has long been such an unsightly object in the Town. Between forty and fifty double team loads of old tins and miscellaneous rubbish were tins and miscellaneous rubbish were removed to a refuse dump, and other things done to help to make the Park a park indeed as well as in name. The Mayor and his volunteer assistants worked hard, and earned the praise of all who would like to see the Town beautified. More remains to be done, and we are sure the good work now begun will be continued till the Park becomes not only sure the good work now begun will be continued till the Park becomes not only a source of pleasure to the citizens, but an attraction to visitors and excursionists as well. As eternal vigilance is said to be solved in the property of the as well. As eternal vigilance is said to be as well. As eternal vigilance is said to be the price of Liberty, so constant care is inecessary to keep the Park in every way attractive; therefore it is well to remind the citizens that they should discontinue the habit of depositing rubbish on the beach in front of the Park, and use instead the dump provided for the purpose. All rubbish that is combustible should be burned.

### A Successful **Business Career**

Successful business mea reagnize as the foundation of their career the early formation of the thrift habit. The accumulation of a competence should be commenced during boyhood. There is little difficulty in sustaining the effort after a beginning has been made. Lasting success in life is not attained, however, until a sound depository is found for one's money.
