### FIIZPAINICK APPOINTED ST. JUHN STUDENTS WIN HAGUE ARBITRATOR

Canada's Chief Justice Highly Honored by British Government

OTTAWA, Ont., June 14.—Sir Charles Ttapasrick, chief justice of the suart of Canada, has been notified of his appointment by the British government to succeed the late Maj. Gen. Sir A. J. Arcagh as one of the four representatives of Great Britain on the permanent board of arbitration at the Hague to settle international disputes. Some time ago, in ratifying the appointment of Sir Chas. Fitzpatrick as joint representative of Canada, Newfoundland and Great Britain on the Hague tribunal to adjust matters in dispute with the United States in reference to the Atlantic fisheries, the British government suggested that Sir Charles might also be appointed as a permanent member of the Hague board to fill the vacancy caused by the death of Maj. Gen. Ardagh. The suggestion was naturally gratifying to Canada as being a significant recognition of Canada's partnership in the affairs of the Empire as a whole and the appointment has now been made.

In view of the fact that the United States senate adjourned last month without passing the treaty providing for the submission of the fisheries question to the Hague the matter cannot now be dealt with until next year unless a special session of the United States senate is held this year.

IOTOR CAR BUNS

AWAY IN CROWD. PARIS, June 13:-There was an exciting scene at the end of the Rue Lafayette, yesterday, all over the price of a fare, between a chauffeur and his two customers, the dispute being settled in the wrong way by the automobile cab running away and smashing itself and two other vehicles. The passengers, on getting out, had by that time. The chauffeur, from his seat, harangued them. The chauffeur, who had got excited, jumped off the car, and to comply with the policeman's orders, returned to set it going again, while the usual crowd, of course, gathered and looked on with as much interest as if it were a play for which they had paid to see. In all the excitement the chauffeur pushed the wrong lever, and off the car started of its own accord, racing down the street, and dashing first into a pedlar's hand-cart, which it knocked over and smashed, and then breaking into an empty cab and demolishing it thoroughly.

The pediar and the cab-driver had each a narrow escape, but when they counted all their limbs none was broken, much to their regret from the point of view of a life annuity. The whole affair ended at the police station, where the chauffeur was held responsible for the two vehicles smashed, as well as suffering the destruction of his own car.
