THE COURS!

THE CO

Bank are vastly more important than those of a Government office—yet they contrive to perform their work well and profitably, without resorting against fraud in the official bureaux.

SHIP-BUILDING IN NEW YORK .- The number yards of New York, this year, exceeds that of any evious year. The aggregate tonnage of steamers already built, or in process of construction, of various descriptions, is over 25,000 tons. Several new steamships have also been sent to the Pacific, by the firm of Howland & Aspinwall, where they are plying between Panama and San Francisco. In addition to the steamers now running between New Orleans and Chagres, a new line is contemplated, to consist of three vessels,—the Franklindlabans, and Humboldt,—the latter to machinery at Namely, was, are to form the new navre line of steamsings. The Humboldt will be ready for sea about three months hence, when she will be placed in the same line with the Franklin.

We understand that Tetu's Hotel, Great Saint James Street, -so long known as a comfortable family residence,—has been taken by the pro-prietor of the "Ottawa," MeGill Street, for the accommodation of visitors to our city during the Industrial Exhibition. Under such management, Industrial Exhibition. Under such management, we have no hesitation in assuring our friends that they will meet with every attention to their com-

INDIAN DWARFS. - The two Indian Dwarfs, m present in New York, are certainly curouties, being only twenty four and twenty, eight inches high. Their respectives ages are axteen and eighteen years, and the weight of both thirty three pounds and a half.

New York, Oct. 5. The steamer Southerner, from Charles'on, arved at New York this morning. She came in allision with the schooler Isalia Mead, and in five minutes after wards the Italia sunk. Four-teen passengers and nine of the crew were lost.

Only nine saved.
The Fair in Cincinnati yesterday was well at-

d to \$10,000.

Meetings have been held at Boston, Lowell, and;
springfield, in regard to the Fugitive Slave Bill,
and strong condemnatory resolutions were passed.

Accounts from Texas are slavning. The ques-

is morning.
The Cheroker, from California, arrived at her The Cherocot, reason Controlled and the what this midfling. She brings two weeks later intelligence from all pasts of California, and \$1,-000,000 in gold dust, and a large number of pas-

Mon. J. H. Price, who stated, in conversation with any Mon. J. H. Price, who stated, in conversation with any upon the subject, that he would not decrive me, but that he was well aware that Dr. Richardson would receive the entire suggest of Mesers. Hinche, Baldwig and himself, so manufactually he would have the

or. ked him for his candour, and told him the astances I would abandon the idea of apment to my interview with Mc.P. I had felt and further in Chair had been disposed of, I should it fied that the Chair had been disposed of, I should it handed in my credentials to the Bursar, upon the ult, as was required by advertisement.

time existed between the Globe and Mr. Hincks, who has prompted some flattering amateur to try attempt is a very sorry affair.

of the city papers, the Globe, Colonist, and Patriot. The alleged libellous matter was a statement that two young men, of respectable connections, named Wilson and Keel, had met one Musson on the highway and severely beet him. The young men were arrested on the charge, and after a hearing of the case, dischargad, it being clear that they were not the offending parties. Their sames were not mentioned by all the journals. Applogues have been made. The tent of three papers inserting the same allies have been made and the Great Exhibition have been each of three papers inserting the same allies have been no must up as to be almost legal facts on one day is proof of the absence of identical; the latter is almost everywhere regard-

LONDON, September 21, 1850.

I presume it is for the want of a better subject that the Metropolitan and Provincial Press, during

that the Metropolitan and Provincial Press, during the last few days, have devoted so small space to a discussion on the treatment which Gesseni Hayman are received to fostnight slages, at the liands of Mesars. Barclay and Perkins' drayments, By some journals that administration of Lynch law is characterized as praise worthy, and by the law is characterized as praise worthy, and by the law is shameterized to praise worthy, and by the law in the second that the law is the law is the law in the law is the law opinions held by rational men upon it. Granted that all which is advanced against the Austrians of the second of cruelty, during the late Hungarian insurrection, is true, in

has appeared in the newspapers on the Hon. P. B., DeBlaquiere. I have the honor to be, Sir.
Your obdit servant.
FRANCIS BADGLEY.
[No. 1.]

Extract from Dr. Scott's private letter to Dr. Badgley, dated Montreel, 19th Seps., 1850.

"Respecting the University business. I sincerely thank you, and have taken the liberty of forwarding the dutall tetter containing my reason for not having applied when here.—I have not didressed it, not knowing who vasuable the topoper party. Will you therefore flavor me by different in here.—I have not didressed it, not knowing who vasuable the topoper party. Will you therefore flavor me by different in handing their case over to be adjudicated on by mobels were a mob in the humor to take it up? I call to receive the the warrant for the infliction of summary punishment by a lawless rabble in one instance, it must be equally so in another. Happily, in this country, we know nothing of the atroctics which are mevitably committed in times of war, and can, therefore, but very imperfective which are mevitably committed in times of war, and can, therefore, but very imperfective which are mevitably committed in times of war, and can, therefore, but very imperfective did not send in my application for the vacant for the infliction of summary punishment by a lawless rabble in one instance, it must be equally so in another. Happily, in this country, we know nothing of the atroctics which are mevitably committed in times of war, and can, therefore, but very imperfectly decide upon the career of those who promimently figure in them. At any processorship of Practiced Anatony in the University of Torouse, during my visit there for that purpose, was entirely in consequence of information received from the Hon. J. H. Price, who stated, in conversation with him upon the subject. In the the world not deceive me, but that he was well aware that Dr. Richardson would receive the first that the subject are worth he was well aware that Dr. Richardson would receive the first that the reson it is that dischard

ral Haynan was confined to his best, and he was possibly never entirely recover from the effects of this brutal attack. He has now left England, with a feeling, no doubt, of deep dislike to the country in which he has experienced so inhospitable a reception.

rer Majesty and her Ruyal Consort are now enjoying the retirement afforded them at Balmoral and further the Chair had been disposed of, I should have head first the Chair had been disposed of, I should have head first the Burrar, upon the 18th and, to the credit of the Scotch people, they are hadded in my credentials to the Burrar, upon the 18th allowed that desired seclusion from sulgar curiosities. Sincerely creating that they may yet be received, I transmin, Sir. Your older servent, Your ol and, to the credit of the Scotch people, they are

the avengers of female wrongs, is ludicrous, were it not for the aged victim. For several days General Haynau was confined to his bed, and he may

to bring a little music out of the Mirror; but the an inferior one—inferior not so much in the yield attempt is a very sorry affair. attempt is a very sorry affair.

Mr. Kingston, late of the North American, was appointed. Mathematical teacher in the Upper Canada College a couple of weeks ago, but he was no long before accepting; that another was appointed. Actions for likel are threatened against three at the city, namers, the Globs, Colonist, and the college and College are threatened against three at the city namers, the Globs, Colonist, and the college and college are colleged as in Cambridgealine and Leicestershice, and not an in Devon and Leicestershice, and not an independent of the formation colashire, and not as in Devon and Leicestershire, partly grazing and milhing, and partly arable. At it this class of farmers which suffer most from Free-Trade. They are noisly dependent upon the grice of corn, as they grow asthing size, and their lands have been reclaimed from the len or the sea at a wast outlay of capital, skill, and enterprise. The quantity of new wheat hurried into the market in some districts in million token of that gradual decline in the resources of the farmer which has been going on ever since the affect of the Free-Trade policy was first felt.

In Lond or Free-Trade and the Great Exhibition have become so mixed up as to be almost

position, and exciaming, at there, see the wonders of his ambition without a flightful struggle. It is not supprised now that the accounts have taken rather an angle ward turn; that these enthusians should be ward turn; that these enthusians should be ward turn; that these enthusians should be puzzies tow to bother up their follacies, and are forced to admit that the exporte of the Kingdom, upon which they have relied so much, have received a slight there. For accural months past the exportes, calculated by the declared value, have been appealed to as indicating this wondrous revolution which "Free-Trade" has become a possible to as indicating this wondrous revolution which "Free-Trade" has become a possible to a be indicating the seen through. The figures do not correspond with the "Ische, since, laung the quantity of cottom mannafactures exported fat the Holsteiners, who advanced, and made as taked upon the vhole Danish line. At Ecken forde, the fighting seems to have been severe, with

most lamentable part of the present catastrophe is, that the unfortunate balloonist has left a wife and children to deplore his untimely end.

A very awful explosion of fire-works took place on Monday in Spitalfields, which has spread great devastation in the neighborhood. The premises of a wholesale tocket and fire-work manufacturar caught fire, and blew up with a frightful noise. Fire-balls, rockets, Roman candles, and all the other ingenious contrivances of v hich gunpowder is the basis, aiscended through it teroof by hundreds, and showered their coutents in all directions. The proprietor of the hultimes which in his zeal was running to fetch the engines was thrown under the wheel of an omnibus and killed.

On Wednesday night, or rather Thursday morning, a fite broke out in Mark Lane, which, before it could be subdued, destroyed the Corn Exchange and several houses, besides doing considerable injury to numerous dwellings.

The deepest interest seems to be taken by all classes in the success of the sub-marine telegraph between Dover and Calais. By the terms of the concession enade by France, it would seem that the whole right of laying it down now reverts to the French Government, and is will, I fear, require a great deal of influence to be experted in the reconcession enade by France, it would seem that the whole right of laying it down now reverts to the French Government, and is will, I fear, require a great deal of influence to be experted in the result of the presence of the sub-marine telegraph between Dover and Calais. By the terms of the concession enade by France, it would seem that the whole right of laying it down now reverts to the French Government, and is will, I fear, require a great deal of influence to be experted in the result of the presence of the sub-marine telegraph between Dover and Calais. By the terms of the concession enade by France, it would seem that the whole right of laying it down now reverts to the French Government, and is will, I fear, require a great deal of influence to be concession made by France, it would seem that the whole right of laying it down now reverts to be the French Government, and it will, I fear, require a great deal of influence to be exerted in favor of the English contrastors to procure any alteration of the original concession, which stipulated that the wire should be laid down by the 1st of September. It is plain, too, that the sharemen must be helbed airs good bounce to be exerted in favor of the Admiralty not to favor of the design, at least not to damage the wires. The positive orders of the Admiralty not to fash over the spot would, I should think, scarcely be of legal validity; at any rate, these would be great, difficulty in enforcing such orders. From the accounts put forth, I think it is plain that the easings of the wire are not one-tenth strong enough, and whatever proceed the such as the such as
