

Kentville, Friday, Oct. 4th, 1918.

**Water Power Needed for Kentville.**

The purchase by the Town of Kentville of the Electric Light Plant and Franchise of the company operating in Kentville gives to the town a public utility that can be made of supreme importance. A good system of electric lighting is a valuable asset, but if it can be added to that an opportunity for cheap electric power for the running of our industries and an inducement for the establishing of new industries it means prosperity for our town.

The town authorities before taking steps to build a new smoke stack for the present power building carefully inquired into the proposition of making a dam on the Kentville brook about a mile above the Mennie Dam where there is a large flat that would hold sufficient water for town purposes and storage for summer months. The cost of constructing the dam and installing a plant there was considered too high for the town at present to undertake.

Our attention has been called to another site for a dam on the same brook much nearer for distribution of electricity. About thirty rods north or below the present Minnie Dam is a flat the northern mouth of which is the narrowest point between banks. Here the west bank is very steep and at the bottom only about sixty feet wide where it strikes a solid stone bank on the other side. A dam placed there would be very short and could easily be built 45 or 50 feet high holding an immense body of water there and also raising the water the whole length of the Mennie Dam from ten to twenty feet.

This water power proposition is worth a careful inquiry into its feasibility. With the present scarcity and price of coal it behoves any town that has any kind of a proposition for water power that is all feasible to make use of it along with all our other efforts in conservation.

The dance given by the officers and men of the Dental Corps last week and repeated again by urgent request on Monday night in Nickle Theatre were among the most pleasant and interesting events of the season. A large number were in attendance on both occasions and the dancing was excellent, the music being furnished by the Depot Band. A large number of out of town guests were present and the pretty costumes and military uniforms mingled in a beautiful scene. The hall was beautifully decorated, the thanks of all being due to Mr. Hiltz for the loan of furniture.

**Wanted**—Small Scale with pan for weighing light goods. Address "M" this office.

## Heating Stoves

Now is the time to be looking after that Heating Stove

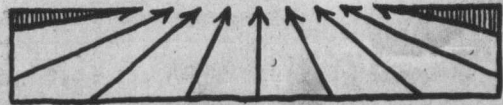

Our stocks are most complete now, and the prices are very reasonable.

We have **McClary's Air Tight Heaters**, all styles and sizes, **Queen Top Draft Stoves**, **Tortoise Heaters**, all sizes, **Hot Blast Stoves**, etc.

Call and select that stove while the line is complete.

### Glorious News From War Centres.

The past week has been so full of news of importance that we are unable to summarize it in a short article. Bulgaria has made terms of unconditional surrender to the Allies and her territory, railways, coals, ships etc., are at the disposal of the Allies in prosecuting the war. Turkey sees the handwriting and is now negotiating for peace and will probably be out of the contest early this month. Austria will then be open to invasion and will probably see how useless it is to further continue which to her only means disruption and destruction.

On the Western front the British have pierced the Hindenburg line, the French have occupied St. Quentin. Lille is being abandoned and a general retreat of the Germans on the whole front is taking place. When this great decisive battle on the whole front from Dunkirk to the Swiss border is decided then the end of the war will be well in sight. Those who know of the events that are now transpiring are filled with the hope that even 1918 may see the end of fighting in the present war. The German army though yet strong is being crumbled up before the Allies.

Gunner Arthur Blackburn, of the C. G. A. Vancouver, is spending a few days leave with his aunt Mrs. J. W. Turner.

The death of Mrs. David Jess took place at Scott's Bay on Sunday last with funeral on Tuesday. We hope to publish a full obituary next week.

### Sad Auto Accident at Lynn Mass

On Sept. 11, Garnet age 4½ years, eldest child of Mr. and Mrs. Charles N. Robertson, was knocked down by an auto in front of his home 38 Ocean Street and instantly killed.

The funeral services were held at the home Saturday at 2 o'clock conducted by Rev. W. L. Healy of St. Paul's Methodist Church, Lynn.

Much sympathy is felt for Mr. and Mrs. Robertson in the death of their bright little boy.

The floral tributes were beautiful. Mrs. Robertson will be remembered here before her marriage as Minnie A. eldest daughter of the late Capt. W. H. Baxter of Canning.

Miss Baxter sister of Mrs. Robertson arrived Saturday via St. John in time for the funeral services and be with her sister in her deep sorrow.

Mr. and Mrs. Herbert Dimock of Berwick, have received word that their son Rev. Arthur V. Dimock, who is Chaplain in the American army at Camp Evans, Sanford, Maine with his two sons, Gordon and Ronald, were out autoing on Sept. 14th, and while crossing the railway track were run into by a train and the auto was smashed to pieces. Mr. Dimock received a bad fracture to his leg; Gordon, who was 17 and was a very promising young man, was instantly killed, while Ronald received severe injuries and had to be taken with his father to the hospital for treatment.
