NO AUTO JOY-RIDING ON SUNDAY.

Our gallant soldiers are averse of gasoline on the battle fields to move up trucks with provisions and ammunition and to send the Tanks out to meet the enemy.

They ask us here at home to give up our Sunday Joy rides and thus save this gas.

Let us all do it. Let the country joy-riders remain in the country, or else trot out their old nags, if they must come to town to read the Truro War Bulletins.

Let the town autoists stay in town; give the country roads a bit of rest; and the good people outside an old-fashioned Sunday a real Sabbath—a day of rest.

If we all do this next Sunday we will save in Canada on that one day nearly 200,000 gallons of gasoline; enough to run a bunch of Tanks, that would lick a regiment of Huns out of their boots.

These cautions and suggestions do not refer to an auto-running for necessity purposes. The soldiers in the trenches only appeal to the joy-riders, who are only out for a jolly, good time, to put in the hours and to waste gasoline.

The business in Sweater Coats was never as large as this season, our range for men and women, boys and Girls was never better, the new novelties coming in all the time are very smart, and are quickly picked up—

DIED OF WOUNDS—ONCE A STUDENT AT NORMAL COL- LEGE.

The wires brought to the home of School Inspector and Mrs. C. S. Bruce on Monday morning the news that their only son, Pte. E. Stanley Bruce, had died on wounds. "Ted", as he was called by his friends was a general favorite and the sad intelligence caused widespread regret in the town.

He was one of those young men who were eager from the first to don the khaki, and as soon as he became 18 was a soldier of the King. At that age he registered with Col Mulock for lieutenant's training. He enlisted from the Provincial Normal College, Truro, as a private in the 106th battalion, and left for overseas on July 17th, 1916. He left for France October 27, transferred to the 49th Albertan battalion and reached the front, November 5th. He was wounded in the knee at a listening post, February 8, 1917. returning to the front, March 26. On July 3rd he received a second wound. In April 1918 he joined the machine gun battalion and was in charge of his machine gun when he received his last wound on September 4th—Yarmouth Light.

TRURO "BIRDMAN" OFF TO TRAINING CAMP.

That popular young citizen, Fred S. Layton, left on the 24th inst., to take up his duties with the Royal Aviation Force.

in camp in Toronto.

On the eve of his departure he was given a hearty and most spontaneous "send off" by brother Firemen at the rooms of the Truro Fire Brigade, Young Street. He is the fourteenth member of this Fire Company, who has left to do his "bit" for King and Country, since the World War started in August 1914.

The best wishes of all follow the popular "Fred" in his military duties and we will watch with interest his every work; and when he becomes an "Ace" it will be told everywhere thru the columns of his Home paper.

WIDE POWERS GIVEN TO CAN- ADIAN FUEL CONTROLLER.

Chas. A. Magrath, Fuel Controller of Canada, has been given wide powers in connection with coal operations in Nova Scotia and New Brunswick.

"He has power to make all necessary investigation, and inquire respecting wages, holidays, hours of labor, the utilization of labor to the best advantage, and respecting all other matters necessary to, and connected with, the cost and production of coal and "the increase and continuance of such production in Nova Scotia and New Brunswick, during the present war, and for three months after the end of the war."

The production of coal is diminishing, and the Controller will find out who is at fault, whether owners or workmen, and will apply drastic remedies.

This almost autocratic Controller is to regulate the price to be paid for coal; he may take over any mine and operate it and he can appoint all the
